GAS EXPLOSION; FOUR HURT

AN OLD LEAK CAUSE[illegible] EXPLOSION IN A 2-STOR[illegible]AT.

Flames Spread Through [illegible]ling at 1303 West Twenty-fourth[illegible]verely Burning Wife and Child of Joseph Byrnes—Others Escaped.

Four persons were injured by a gas explosion in the 2-story building at 1303-1305 West Twenty-fourth street at 7:30 o'clock last night. Joseph Byrnes, a machinist, who occupies the second floor of the building at 1303, received burns on both hands, his son Thomas, 3 years old, and his wife, Mrs. Annie Byrnes, were severely burned about the face, body and legs. Mrs Byrnes was taken to St. Joseph's hospital where it was said her condition is dangerous. The boy had just recovered from an attack of pneumonia. He may die.

Mrs. Laura Vinges, who lives across the hallway from the Byrnes's, received slight burns in putting out the fire that had caught Mrs Byrnes's clothing

EXPLOSIONS SCATTERED FLAMES

Byrnes was playing with his boy in the front room. The gas lights were burning full force Suddenly there was a loud explosion, followed almost instantly by another. Flames broke out in all parts of the flat Byrnes seized the baby and rushed into the dining room, where his wife, Annie, lay Her clothing was afire.

Mrs. Byrnes rushed across the hallway into the adjoining rooms. There Mrs. Vinges wrapped her in a raincoat and smothered the flames

In attempting to put out the flames Byrnes set fire to the baby's clothing and severely burned both his own hands. The burning clothing was torn from the boy, but not until he had been severely burned.

A PARALYTIC ESCAPED UNHURT.

Charles Ashbaugh, a paralytic, with Mrs Ashbaugh, who also are tenants in the flat, reached the street safely. Firemen soon extinguished the flames in the building.

The plateglass front of the vacant storeroom beneath the living rooms was shattered by the second explosion and blown across the street. The first floor room had not been used since it was occupied by a barber shop two months ago The basement also was empty An examination showed that the gas meter for these rooms was working, however. It was thought that a leak in the basement allowed the gas to gather in the ceilings on the two floors and the escaping gas was ignited by the lighted jets.

A SCARE FOR A NIGHT SCHOOL

Ruskin hall, on the first floor of the building, was being used last night as a school, Mrs Annie M Goss, teaching a class of eighteen boys. When the noise of the explosion came there was a rush for the door, but none was injured

"I had noticed fumes of gas in the building after the barbers moved out," said W M Doarn, a son of James Doarn, who owns the building "The leaks were reported to the gas company two or three times, but nothing was done."

A COLD WAVE ON THE WAY.

The Temperature Is to Fall 40 Degrees in the Next Thirty-six Hours.

Another cold wave is on its way to Kansas City and vicinity, according to a bulletin received at 10 o'clock last night at the office of the weather bureau in the Scarritt building. This will likely mean a temperature within a few degrees of the zero mark

There will be increasing cloudiness today with colder weather to-morrow The highest temperature yesterday was 59 and the lowest temperature was 25 A year ago the maximum temperature was 48 and the minimum temperature was 42 The hourly readings of the thermometer follow -

PUZZLING STATION MANEUVERS.

Sidestepping That Suggests Absence of Earnestness to Reach an Agreement.

When the lawyers in the Union station negotiations separated yesterday their position was one as involved as ever, so far as the man on the outside is concerned One day an agreement is reached The next day the four lawyers find there is no agreement, after all.

The task set is to frame a section on switching and subfreight station charges satisfactory to the shippers and to the railroads. The meetings are held in the office of a lawyer for the shippers. This was expected to be of some comfort to the shippers, but now they have become doubtful.

Wednesday afternoon J. A Reed for the shippers, S. W Moore, counsel for the railroads, and R J Ingraham, counsel for the public utilities commission, who is helping the mayor to get the station, had agreed on a switching section. This was a modification of a clause presented by Mr Moore. It was not to the liking of E C. Meservey, city counselor, but as it was satisfactory to the representatives of the shippers and the railroads he announced his willingness to approve the ordinance with that section in it It remained only for the lawyers to meet yesterday and prepare their report to the council committee The news of this reached some of the shippers They had heard, too, that Meservey was not entirely satisfied. H G Walson, who has been active for the shippers, was present, ready to protest. When Mr Moore arrived he himself had some changes to make. This precipitated argument and contention that lasted until after 1 o'clock, when the lawyers quit without an agreement on anything—not even the time when they should meet again

A VICTORY FOR GOOD ROADS

THE KANSAS SENATE REPORTED THE HODGES BILL FOR PASSAGE.

Twelve Senators Were Against the Measure on a Test, but It Is Believed Some of Them Will Vote for It.

Topeka, Feb. 11.—The first test of strength between the friends and the enemies of good roads came in the senate this afternoon when the Hodges "rock road" bill came up for consideration in committee of the whole. The friends of good roads won by a vote of 18 to 12, and the bill was reported out for passage. From this vote it is assumed that practically all of the good roads legislation will go through the senate. The test vote came when Brewster of Doniphan, after the bill had been under consideration about half an hour, moved to postpone its consideration to some future time. Upon this proposition these senators voted in the affirmative Porter, Potter, Fowler, Myers, Bender, Brown, Camborn, Smith, Hunter, Brewster, Moore and Cooke.

It is not fair to say that all of these senators are against good roads, for there was more or less of a trick in Brewster's motion The good roads advocates are contending to-night that when the bill comes up for final passage they will have from 23 to 25 votes

HE AIMED AT MOTOR CARS.

When Section 6 was reached in the consideration of the bill, Senator Potter took the floor From that on he led the fight against the bill Section 6 refers to the payment for the improved road. Potter introduced this amendment·

> That the county commissioners shall make an enumeration of the motor cars in the county where said road improvement is petitioned for and shall pro rate the cost of said improvements as a tax upon their cars in proportion to the value thereof.

"This bill is drastic. It's ill considered," thundered Potter "I am astonished that anyone should bring a bill in here taxing the farmers in this way. It's unfair that some party who owns real estate along a certain road can compel others to pay for macadam road. Ohio has a good roads law and their farms are now mortg[illegible] Our taxes are too high You would[illegible] den every acre of farm land from[illegible] to $15 more. Stop and get you[illegible] ears to the ground, or in the language of a distinguished party, 'your seats will be occupied by someone else'"

HODGES EXPLAINED THE BILL.

Senator Hodges explained that there was nothing compulsory in the law to compel any section of the state to construct a rock road He went over the bill and showed that no permanent road improvement could be begun unless the majority of landholders along the line of the proposed road should petition for it He said some parts of the state, especially the eastern part, wanted rock roads Raising his voice somewhat he said. "If I am unfair in the preparation of this bill I am glad that I cannot look at matters as does the senator from Marion (Potter). If the idea of the majority ruling is unfair then there is nothing in fairness. A critic may be ever so honest, but he must have something better to offer or he descends from the height of a critic to that of a common scold"

Senator Brady of Douglas spoke earnestly for the Hodges bill. He said that some time ago there was a movement on foot to build a rock road between Lawrence and Kansas City, that the land owners along the route favored the plan, but they found that under the law they were unable to carry out the work "They still want that road," said Senator Brady, "and if this law is enacted they will immediately make the start. The time has come for the people of Kansas to begin the construction of good roads We have been talking of good roads for years and years This is the time to quit talking and go to work."

WHAT THE BILL PROVIDES

The Hodges rock road bill provides that whenever a majority along the line of a road shall petition the county commissioners for a permanent road improvement the commissioners are to improve the road. The petition of the land holders is to state the name of the road to be improved, the distance of improvement, the kind of improvement and the number of annual assessments, not exceeding ten. After the petition has been filed the commissioners shall have an accurate survey of the road made by the county surveyor or other competent surveyors and a careful estimate shall be made of the cost of the improvement. To pay for the new road the commissioners shall issue special improvement bonds to bear 6 per cent or less.

The work is to be paid for in this manner: Three-quarters of the cost by the owners of the tracts of land in the benefit district and one-quarter by the townships at large in which the improvement is made. Bridges and culverts are to be built by the county. The law does not apply to the construction of roads costing less than $1,000 a mile

"PUBLIC CAN PURIFY PLAYS."

Theatrical Managers Say They Have to Furnish What Patrons Demand.

New York, Feb 11.—The relation of the public to the theater, with special reference to the question of what are not plays of a desirable character, was discussed to-night by Charles Burnham, president of the Association of Theater Managers, and Marc Klaw before the Entertainment club Both said the public was more responsible for the plays presented than the managers

"New York is a town of sensation," said Mr Burnham "Let the word be passed that a play is broad or indelicate and the town runs wild about it, while some play of merit, bright and entertaining, is laid on the shelf Women are more to be blamed for this than men. No play can exist that is not patronized by women"

Mr Klaw said that society could do the greatest good to the stage by turning its back upon indecent plays The question of decency ought to be very easily settled.

A Naval Lieutenant Asks Divorce.

NOW MESERVEY AND THACHER.

The Lost and Said to Be the Best Guess on Police Board.

Jefferson City, Feb. 11.—Governor Hadley hopes to be able to settle the question of who shall be police commissioners of Kansas City while he is in Kansas City to-morrow. The name of E. C. Meservey comes up in every connection and unless signs fail he will be one of the commissioners John H. Thacher's name has been frequently mentioned, and to-night it is believed that Meservey and Thacher is the best guess.

CUBA IS AT IT AGAIN.

A Company of the Rural Guard Mutinied and Rushed the Palace.

Havana, Feb 11.—Mutiny broke out this afternoon in a company of the Rural Guard just after the men were about to embark in launches to be transported across the harbor to Cabanas fortress. When the men learned that they were to be transferred from the Rural Guard to the permanent army, in accordance with a decree issued some weeks ago by Governor Magoon, they refused to embark. Led by a subaltern officer they rushed to the palace They entered the courtyard and demanded an immediate audience of President Gomez.

Some attempted to ascend the stairway to the presidential apartments, but the way was barred by the police The mutineers, who were unarmed, retreated, but they remained in the courtyard, shouting that they refused to submit to the transfer Several generals addressed the mutineers and restored order The men were then sent to Cabanas under an armed escort

HARVARD OPPOSED TO LUXURY.

Dr. Eliot Says Even Carpets Were Frowned At There a Few Years Ago.

Chicago, Feb. 11.—"Harvard university is opposed to luxury and the segregation of the rich," said Dr. Charles W Eliot, retiring president of the university, before the closing general session of the Religious Education association to-day

"A few years ago, when I was a student, we had no gas, we drew water from a pump in the courtyard, and when the first carpet was introduced considerable complaint was made at this evidence of luxury We don't want exactly these conditions to prevail now, but we are opposed to extreme luxury"

James Bryce, ambassador from Great Britain, pointed out what he said was the necessity of religious teaching along with ethical teaching. He said that "in large sections of the country there was a tendency towards indifferentism in religion and a diminished reverence for religious beliefs."

LOCAL OPTION IN INDIANA.

The Rural Prohibition Bill Passed the House—Senate Favors It.

Indianapolis, Feb 11.—The Proctor-Tomlinson county local option repeal bill was passed by a vote of 52 to 44 in the Indiana house of representatives to-day. The passage of the bill followed the hottest debate of the session. It was agreed upon as a compromise measure. There were ten Democratic representativs, however, who voted against the bill. Four Republicans voted for it

Champions of the bill predict it will pass the senate, which is controlled by the Republicans.

The bill provides for incorporated town and city ward local option It would enforce prohibition in the rural districts It allows only one saloon to 500 inhabitants and does away with saloons owned by breweries.

Not only is the list of signatures impressive numerically, but in it are the names of women who heretofore have been identified with those who have supported Hammerstein's opera house "Salome" was given as announced.

Lincoln's Gettysburg Address

FOUR SCORE AND SEVEN YEARS AGO, OUR FATHERS BROUGHT FORTH ON THIS CONTINENT A NEW NATION, CONCEIVED IN LIBERTY AND DEDICATED TO THE PROPOSITION THAT ALL MEN ARE CREATED EQUAL.

NOW WE ARE ENGAGED IN A GREAT CIVIL WAR TESTING WHETHER THAT NATION, OR ANY NATION SO CONCEIVED AND SO DEDICATED, CAN LONG ENDURE WE ARE MET ON A GREAT BATTLE FIELD OF THAT WAR WE HAVE COME TO DEDICATE A PORTION OF THAT FIELD AS A FINAL RESTING PLACE FOR THOSE WHO GAVE THEIR LIVES THAT THAT NATION MIGHT LIVE IT IS ALTOGETHER FITTING AND PROPER THAT WE SHOULD DO THIS.

BUT IN A LARGER SENSE WE CANNOT DEDICATE, WE CANNOT CONSECRATE, WE CANNOT HALLOW THIS GROUND THE BRAVE MEN, LIVING AND DEAD, WHO STRUGGLED HERE, HAVE CONSECRATED IT FAR ABOVE OUR POOR POWER TO ADD OR DETRACT

THE WORLD WILL LITTLE NOTE, NOR LONG REMEMBER, WHAT WE SAY HERE, BUT IT CAN NEVER FORGET WHAT THEY DID HERE

IT IS FOR US, THE LIVING, RATHER TO BE DEDICATED HERE TO THE UNFINISHED WORK WHICH THEY WHO FOUGHT HERE HAVE THUS FAR SO NOBLY ADVANCED IT IS RATHER FOR US TO BE HERE DEDICATED TO THE GREAT TASK REMAINING BEFORE US—THAT FROM THESE HONORED DEAD WE TAKE INCREASED DEVOTION TO THAT CAUSE FOR WHICH THEY GAVE THE LAST FULL MEASURE OF DEVOTION—THAT WE HERE HIGHLY RESOLVE THAT THESE DEAD SHALL NOT HAVE DIED IN VAIN—THAT THIS NATION UNDER GOD SHALL HAVE A NEW BIRTH OF FREEDOM—AND THAT GOVERNMENT OF THE PEOPLE, BY THE PEOPLE, FOR THE PEOPLE, SHALL NOT PERISH FROM THE EARTH

Lincoln's Letter to a Bereaved Mother

Executive Mansion, Washington, Nov 21, 1864

To Mrs Bixby Boston Mass

Dear Madam I have been shown in the files of the War Department a statement of the Adjutant General of Massachusetts, that you are the mother of five sons who have died gloriously on the field of battle I feel how weak and fruitless must be any word of mine which should attempt to beguile you from the grief of a loss so overwhelming. But I cannot refrain from tendering you the consolation that may be found in the thanks of the republic they died to save. I pray that our Heavenly Father may assuage the anguish of your bereavement, and leave you only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom.

Yours, very sincerely and respectfully

A. Lincoln

O Captain! My Captain!

WALT WHITMAN

O Captain! My Captain! Our fearful trip is done
The ship has weatherd every rack, the prize we sought is won
The port is near, the bells I hear, the people all exulting,
While follow eyes the steady keel, the vessel grim and daring
But O heart! heart! heart!
The bleeding drops of red
Where on the deck my Captain lies
Fallen cold and dead

O Captain! My Captain! Rise up and hear the bells
Rise up—for you the flag is flung—for you the bugle trills.
For you boquets and ribbon'd wreaths—for you the shores a-crowding
For you they call, the swaying mass, their eager faces turning
Here Captain! dear father!
This arm beneath your head!
It is some dream that on the deck
You've fallen cold and dead.

My Captain does not answer, his lips are pale and still
My father does not feel my arm, he has no pulse nor will
The ship is anchor'd safe and sound, its voyage closed and done
From fearful trip the victor ship comes in with object won.
Exult, O shores, and ring, O bells!
But I with mournful tread,
Walk the deck my Captain lies
Fallen cold and dead

BLACKMAIL CAUSED SUICIDE

A CHICAGO CHURCH'S FINANCIAL SECRETARY TURNED ON THE GAS.

"I Am Sacrificing a Life I Have Spent for Others," Wrote Allen Depue, Whose Accounts Were Short.

Chicago, Feb. 11.—A gas filled room in the rear of the church of which he had been financial secretary and a letter of farewell written on the back of a map of the Holy Land, which hung on the wall, was the closing scene of the life of Allen Depue, who, despite the spelling of his name, said he was a distant relative of Senator Chauncey M Depew The facts came out at the inquest to-day.

Depue had been financial secretary of the Roseland Central Presbyterian church at 10944 Indiana avenue. Mrs Depue, the widow, testified that her husband had told her he had been systematically blackmailed since his boyhood, but he never told her the details Recently the trustees of the church accused him of a shortage of several hundred dollars. After insisting on his innocence, Depue promised to return the money last Monday night. In this he failed and his body was found by the pastor of the church just before the evening prayer meeting In his letter Depue wrote:

> I am going through an ordeal to-day that none of you know, and I hope you never will. For the benefit of others I am sacrificing a life to-day that has been spent for others, but I have never faltered in well doing. I have failed to present to you that which I promised, but I think the time will come when I shall be vindicated. There are those who have the key to my life. If they care to present that it will prove that I have done my duty in every respect. You can tell my sisters, Mrs. J. B. Lyman, 92 Washington square, Salem, Mass., and Mrs C. B. Sprague, Des Moines, Ia., that they are languishing on the results of my labors. But my wife is suffering to-day through my faults in a way, while I have been the victim of blackmail in two cases.
>
> I felt like paying the penalty myself, for I have all the sympathy for those weaker than I am, for my life has been more for the comfort of others than myself. Don't ever chastise Mrs. Depue and tell her to keep this from Mabel if possible. I expected to be able to vindicate myself, but have failed. I was surprised to see the smile on their faces Sunday night. It brought tears to my eyes But they have the best of the game and I presume they realize the same. The time may come when their consciences may prompt them. Now in the end do as you think best. Bury me and if you have any tribute to offer do so And also turn my body over to my nephew, C. B Lyman, Denver, or to the Chicago School of Surgery. It is all I have to leave for the benefit of others. In closing I think the time will come when I will be vindicated for my past. I think I will meet some of you. Good-bye. A. Depue

HE, TOO, CHARGED BLACKMAIL.

Charles Warner, an English Actor, Hanged Himself in New York.

New York, Feb. 11.—Charles Warner 66 years old, a widely known English actor, committed suicide here to-night by hanging. A rambling note was left in which he laid the motive for his act of selfdestruction to the persecution of "thieves, liars and blackmailers," who, he said, had mulcted him out of thousands and thousands of dollars.

Warner achieved fame in England several years ago through his interpretation of the character of a drunkard in the play called "Drink," based on Zola's novel, "Nana." This play, which ran 1,000 consecutive nights, showed Warner to be a realistic actor of the first rank. His portrayal of the last stages of delirium tremens was made the theme for numberless sermons in Great Britian

Recently Warner went into vaudeville, achieving success in a sketch called "At the Telephone"

Grenfell at the Coates house last night Dr. Grenfell spends his winters on the icebound coast of Labrador, ministering to the material and spiritual needs of the scattered population. When a physician is wanted he goes on a seventy or eighty mile journey with his sledge and a team of eight dogs, carrying a medicine chest, provisions for two days—"pork-buns," made of flour, molasses and strips of pork fat—some whale meat for the dogs and some extra clothing

"I got a call from forty miles away last Easter Sunday," Dr. Grenfell told. "That day I made twenty miles and stayed over night at a village. I held an Easter service that night I set out early next morning over the ice, dressed in running shorts and a jumper made of soft reindeer hide, head and ears well covered with a fur cap and good warm moccasins on my feet. No, no furs. If I had been wearing furs I should have had no chance. The ice looked good, so I took a bee line across a bay, eight miles it would have been But about 9 o'clock, before I had gone half way, I felt the ice move and in another minute I was floundering in the icy water entangled in the dog harness and the sledge. I tried to climb back onto the ice, but there was no edge to it. In fact, it was nothing but pounded ice and snow that had frozen up again and was now being rapidly broken up by the rise and fall of the sea

FINALLY FOUND AN ICE PAN

"I had the presence of mind to cut the dogs loose from the sledge or we should have been drowned at once. I sent a dog ahead with a line and tied my knife onto another. Then began an awful search for a piece of ice firm enough to hold us Time after time the floating pieces split into fragments as I tried to haul myself out of the water. At last I managed to get a foothold on a pan of ice. It was about eighteen inches thick and ten by twelve feet across.

"It seemed as if I had only escaped drowning to freeze to death There was no time to lose, so without hesitation I took my knife and killed three of the faithful dogs, who had scrambled out with me They fought like wild animals and bit great scars on my body and limbs; but I was fighting for my life, too I was nearly frozen stiff by the time I had skinned them and wrapped their warm fur about me inside my frozen clothes. I piled the dead bodies up to protect me from the wind and made the other dogs lie around me. I took the rope out of their harness and picked it into oakum to stuff into my stocking feet That saved my toes.

"Then I waited I don't know what for. I thought perhaps the men who had been sent for me and had gone on ahead would miss me But there was little hope and we were drifting out to sea. When night came on the sea began to freeze over I envied the dead dogs for having got through it so quickly Before morning the live dogs were eating their dead fellows. I had nothing. I was ready to eat the frozen dogs myself. The salt of the water and the ice had given me a raging thirst, too.

DOGS' LEGS AS A FLAGPOLE.

"When daylight came I realized our pan of ice would never be noticed unless I could make some kind of signal So I cut off the hind legs from the frozen bodies, spliced them together and tied my handkerchief on the end of that flagpole. The ice that formed in the night was only a thin coating that melted as the day came on The worst of the suffering was when my hands began to freeze, for unfortunately I had lost my fur mittens in the water Then at last, after I had been afloat on that desolate, frozen sea for twenty-four hours, I saw a little boat coming in our direction through the drift ice and knew that I had lived through a most uncomfortable adventure.

Dr. Grenfell will give a lecture on his work and adventures in Labrador at the Grand Avenue M. E. church to night.

BAD FOR "JOINT" DRUG STORES.

The Kansas Senate Voted for the Bill Against Liquor Permits.

TOPEKA, Feb 11.—With only one senator—Vinton Stillings of Leavenworth—dissenting, the new prohibition law prepared by the senate judiciary committee passed the senate this afternoon. A large audience was present, including the members of several women's clubs Judge Price, chairman of the judiciary committee, made a few explanatory remarks. Among other things he explained that under the law whisky and beer drummers from Kansas City and other places, who came into the state and took orders for their goods, would be liable to punishment under the new law.

"This new bill," said Senator Price, "does not take away a weapon from the prosecuting officers in their enforcement of the prohibitory law. On the other hand it places in their hands additional weapons. One of the strongest points of the bill is that it takes away in the entire state the right to issue drugstore permits to sell liquors. This bill has the approval of all nine members of the judiciary committee and the attorney general"

The bill will now go to the house

The roads and bridges committee of the senate introduced into the senate this afternoon its road drag bill. The bill provides that the township boards shall appoint drag men and that they shall drag the roads by districts as outlined by the boards. The drag man is to receive fifty cents for each mile of road dragged, with a maximum pay of $5 a mile for a year The township board furnishes the drag

J T Huntington, chairman of the legislative committee of the Kansas Gas, Water, Electric Light and Street Railway association, is sending out letters to all of the companies handling business of this kind urging them to send letters and telegrams to their representatives and senators not to pass the public utilities bill.

The house spent all afternoon in committee of the whole. It recommended the tuberculosis bill for passage without any amendments The bill requires notice of all tuberculosis cases sent to the health officers and disinfection of all premises where there are tubercular patients The house also worked a while on the senate weights and measures bill but did not complete it

DOGS TAUGHT BY CARESSES.

New Methods by Sandor, the Trainer, Who's at the Orpheum.

Dogs don't look exactly natural when dressed up like Shetland ponies. That's the reason many persons visiting the Orpheum this week wonder to what species the big, gentle creatures which take part in Sandor's miniature circus belong. And why is it that they are so quiet and obedient, going through their turns without the touch of a whip, just as though they enjoyed it? Their trainer says they have been educated entirely by caresses. A slightly harsh word in the way of a reprimand, he says, means something to his big pets, where they wouldn't understand the stroke of a whip

The eight large dogs carried by Sandor are of a German breed called in the old country Ulmdoggen, because of their origin near the old city of Ulm on the Danube. Mme. Sandor was superintending the saddling and disguising of the dogs back of the stage A number of the women and a few of the men who take part in the other turns were looking on.

"This is poor old Rolf," said madame, patting one big fellow on the head. "He doesn't look his best to-night See his black eye. The beastly truckman in Memphis threw his cage off upside down last week and poor Rolf stood on his head"

A little woman in white tights and a powdered wig—one of the "Phantom" acrobats—gave a little shriek at first when Rolf walked up to her. But when he put up his paw and gently licked her hand as she shook it Rolf won the woman's heart completely. Leo, the life saver, was introduced next, and so on down the list Leo was raised on a big farm near Konigsberg, where he was taught. Once when the Sandors were in Zurich Leo was walking along the lake shore with his groom, when a little boy fell off the pier into the lake. Just a word from the groom and Leo was in the water and brought the lad safely out.

"I have always trained my dogs without the use of punishment," said Sandor. "Sometimes when they first come to me they cower and slink away afraid when they know they have done wrong They soon get over that. Now when I speak harshly to them they merely look at me sad eyed, ashamed and sorry. And next time they try to do better."

SILVIA GREEN IS ENGAGED

THE ANNOUNCEMENT MADE BY HETTY HERSELF, IT IS SAID.

Matthew Astor Wilkes of New York Is to Marry the Daughter of America's Richest Woman—Miss Green Is Not a Society Woman.

GALT, ONT., Feb. 11.—Miss K L. Wilkes of this city is notifying her friends in Galt of the following announcement made this week to their family and intimate friends.

"Mrs. Hetty Green, New York, announces the engagement of her only daughter, Miss Silvia, to Mr. Matthew Astor Wilkes, New York, oldest son of the late Matthew Wilkes, Cruickston park, Galt, Ontario."

Sylvia Green is no longer a girl. She is 38, to be exact. She never has taken part in the active, giddy whirl of New York or Newport social circles. Her own distaste for bridge whist, cigarettes, monkey parties and the dissipation that goes with week end parties of the membership of the golden circle has been responsible partly for the semi-seclusion in which she lived

Another and perhaps more dominant reason has been the fierce hatred of "Aunt" Hetty for titled fortune hunters and the grim guardianship she exercised in order that her daughter might not become the prey of a continental weakling with tons of nobility patents and half an ounce of respectability. She said once: "I'd rather have my daughter marry a good, live newspaper man than any duke in the world."

The remarkable woman, who increased the 1 million dollars her father left her to well on to 100 million dollars, and who stalked calmly through the wild upheavals of Wall street with her little black satchel over her arm, making herself, like the late Russell Sage, the synonym of actual cash, cared no more for the idle smart set of New York than she did for the leisured aristocracy of the Continent

"Huh, don't I know them?" she said not long ago. "Some sets in New York are living in worse manner than the people at Sodom and Gomorrah"

The Earl of Yarmouth, who married Alice Thaw and who was divorced from her recently, looked hopefully in Miss Sylvia's direction on the occasion of his first expedition to this country. His pretensions were quickly analyzed and exploded by the watchful mother. There were others, but all came to the same hard, cashless fate.

Mr. Wilkes is not an uninteresting man His years total considerably more than those of his bride-to-be Although his father was an Englishman, Mr. Wilkes comes near enough "Aunt" Hetty's requirement—that her son-in-law must be an American—to fill the bill. His father at one time was chaplain of the British embassy in Paris, where the boy spent his earlier life. The younger Wilkes attends many social events given by the "400" and frequently is one of Mrs. Astor's dinner guests.

TO BUY THE MOFFAT ROAD.

An English Syndicate Says It Has an Option on a Half Interest.

DENVER, Feb. 11.—The Denver Times says to-day: A fight for the control of the Moffat road, now being constructed between Denver and Salt Lake has been revealed by a suit brought in New York by Reginald Valle, representative of an English syndicate, to force the company to sell a half interest in the Colorado-Utah Construction company to the syndicate for $1,700,000. The suit will come up in the United States district court in New York April 5. The English syndicate says it has an option on the stock and that the Moffat interests now decline to allow them to exercise it. Mr. Moffat's representatives deny this.

There has been a long fight between the Moffat interests and others, who have fought to prevent its construction, principal among these being E. H. Harriman. It is possible that the suit will be compromised, provided the identity of the interests which seek to buy a half interest in the construction company is made known to Mr. Moffat.

A SWIFT TRUST IN NEW ENGLAND?

Seven Atlantic Beef Men Go Before the Chicago Grand Jury.

BOSTON, Feb. 11.—Seven Boston and New England beef men have been summoned to Chicago—five of them are already on their way—to testify before the federal grand jury in another Beef trust investigation, which it is believed will land some of the packers "higher up" in jail.

The assertion is made that the federal authorities have decided that Swift & Co. has formed a 10 million dollar beef combine in five of the New England states. It is charged that this combination includes tanneries as well as packing and provision houses, thus comprising the most sweeping form of trust that has yet been formed.

The action of the grand jury has created consternation in packing circles in New England Word has reached here that it is the intention of the grand jury to indict every packing man guilty of a violation of the anti-Sherman law, and that they will not be allowed to go free after the payment of fines

A NEW INSURGENT RESOLUTION.

House Members Ask for a "Calendar Tuesday" Alone Now.

WASHINGTON, Feb. 11.—The House insurgents who refused to sign the resolution for the change in rules advocated by the majority, have brought in a less radical resolution of their own. It provides for a "calendar Tuesday," that is for a call of committees each Tuesday to give a chance for action on bills favorably reported without getting the Speaker's consent.

This was included in the more radical resolution which provides in addition for a committee of fifteen to appoint the committees and to formulate rules

The "insurgents from the insurgents," who signed the moderate resolution were Scott, Campbell and Anthony of Kansas; Townsend of Michigan, Howland of Ohio and Parsons of New York.

The twenty-nine who signed the radical resolution are for this one, but believe it does not go far enough

AN ERROR WILL SAVE $14,000.

New Bids on Cast Iron Water Pipe $1.35 Lower on Each Ton.

Through an error in its advertisements for bids to furnish 10,000 tons of cast iron pipes for use in the water department the fire and water board saved just $1 35 a ton. Two weeks ago the board rejected the bids received from three companies and ordered the secretary to prepare new advertisements for the supply. The bids were opened yesterday afternoon. The lowest was for $24.60 a ton, or $1 35 less than the lowest bid previously submitted. On the entire contract this will amount to about $14,000.

SENATE PASSES KNOX BILL

THE SALARY OF THE SECRETARY OF STATE REDUCED TO $8,000 A YEAR.

No Opposition to the Measure to Save the Senator to Mr. Taft's Cabinet—The House Will Act To-day—Some Doubt Its Legality.

WASHINGTON, Feb. 11.—Without a dissenting vote and with no discussion the Senate passed a bill this afternoon reducing the salary of Secretary of State from $12,000 to $8,000 a year and thus removing the constitutional bar to Senator P. C. Knox's acceptance of the office under the Taft administration. Democrats joined with Republicans in the enactment of this legislation and the reports that there would be opposition in some quarters proved to be groundless

Late in the afternoon an opportunity appeared for its consideration and Senator Hale called it up. It was passed by a *vive voce* vote.

SPEAKER CANNON FAVORS IT

The bill will go to the House to-morrow and it is expected that it will be passed through that branch with little opposition Speaker Cannon believes the enactment of this measure will accomplish the purpose for which it was put forth and he is in favor of it. While some Republicans and some Democrats are in doubt as to the legal question involved, the majority of them agree with the Senate lawyers that after the salary of the position has been reduced to its original figure there will no longer exist a bar to Senator Knox's acceptance of the office.

The only objection remaining is the technical one resting on the fact that the salary of the office of Secretary of State has been raised and that this fact is not altered by the reduction.

NO STATEMENT FROM KNOX.

No statement has been made by Senator Knox as to his intentions and the queries as to whether he will accept the office if Congress passes this bill remain unanswered by him. But it is known that he will be governed in his course by the actions of President-elect Taft and Congress. If Mr. Taft is satisfied of the legality and the propriety of the plan and Congress sees fit to carry it out without a serious division over it, Mr. Knox will accept But if Mr Taft should have any doubts as to the law or the ethics or if any serious opposition to the bill develops in the House then he will not accept it.

"Senator Knox will not take the portfolio of State with any cloud upon his title to the office," is the way in which a close friend of the senator expressed the fact to-night.

Up to 8 o'clock to-night Senator Knox had received no word from Mr. Taft upon the subject. It is supposed that the senators who have had charge of the bill in the Senate have advised the President-elect of their course, but whether they have received a formal notification of his approval is not known.

NO LAWS WOULD BE INVALIDATED.

As emphasizing the importance of the legal question involved in the reduction of the salary of the office in order that Mr. Knox may accept it, it has been said that one of the first acts of Congress which it will be his duty as Secretary of State to promulgate, will be the new tariff law. The argument is that if his title to the office is not good it might endanger the validity of this important measure Constitutional lawyers, however, say there is nothing in this point, as it is a well established rule of law that the validity of an official act cannot be destroyed by an official who was *de facto* exercising the duties of the office, having been elected and confirmed in good faith. So that whatever objection might be urged against Mr. Knox's title to the office, once he became Secretary of State, no official act of his could endanger legislation.

KNOX MATTER WORRIED TAFT.

The President-Elect Believes Congressional Action Will Settle Eligibility.

NEW ORLEANS, Feb 11.—Mr. Taft received by wireless telegraph yesterday the news of the constitutional question raised against the appointment of Senator Knox as Secretary of State. He was somewhat disturbed over the situation last night, but he received, early to-day, the news of the disposition of Congress to amend the cabinet salary law and he was inclined to take this as a happy solution of the difficulty. Pending a conference with Senator Knox in Washington next Wednesday, the President-elect regards it as impolitic to discuss the question.

TO PROTECT RED CROSS NAME.

Miss Boardman Protests Against the Use of the Brand on Chicken Feed.

WASHINGTON, Feb. 11.—The name of the American National Red Cross is being infringed upon to sell such commonplace materials as chicken feed and persons have resorted to the use of the name, according to Miss Mabel Boardman, secretary of the American National Red Cross She appealed to-day to the House committee on foreign affairs for further legislation to supplement its original incorporation.

Miss Boardman urged the passage of the Denby bill amending the act incorporating the society. Besides prohibiting infringements under penalty, the bill provides for the expenditures of balances of specially subscribed relief funds for other relief work.

NO NEWS OF BERLIN CONFERENCE

The English-German Meeting Was "Satisfactory," the Public Is Told.

BERLIN, Feb 11.—Intense curiosity is being displayed by the German people concerning Sir Charles Hardinge's conference with Chancellor von Buelow last night.

The authorities maintain the strictest reticence except to say that every subject was touched upon in which the policy of both nations is interested and that the result was most satisfactory. It is understood that before the departure of King Edward Sir Charles will have a further conference with the chancellor.

The indisposition of the king from a mild attack of bronchial catarrh is so slight that he was able to carry out the greater part of the prearranged programme without inconvenience. Accompanied by the queen and the emperor and empress the king paid a lengthy visit to the Emperor Frederick museum. The royal party afterwards dined with the crown prince and crown princess at their palace, after which they attended a performance of "Sardanapalus" at the opera.

ST JOSEPH, Mo., Feb. 11.—Official announcement of the gift of fifty acres of choice outing land by W. M. Thompson of Springfield to the Missouri Y. M. C. A. was made to-day at the meeting of the state committee of that organization. The tract was given with the understanding that it would be used as a summer camping ground.

Members of the state committee say that it is their purpose to have cities of the state build bungalows on the tract and that St. Joseph is among the first which will so improve the place. The tract is located near Hollister. Another announcement was that a secretary would be named soon to work in the smaller towns where association buildings have not been instituted.

A TRAFFIC WAY START AGAIN

THE MAYOR'S STREET RAILWAY PLAN MAY BE CONSIDERED.

New Commissioners Will Hear From R. J. Ingraham of the Utilities Board Suggesting That New Proceedings Be Started.

The new commission on the West traffic way is to meet at 10 o'clock this morning. The advisability of abandoning the grading and condemnation proceedings started under the old charter is to be discussed. R. J. Ingraham, counsel for the public utilities commission, is to give his reasons for recommending a new start under the new charter.

Some action may also be taken on Mayor Crittenden's suggestion of a new basis for an extension of the Metropolitan street railway franchises, which expire in 1925, in connection with the building of the traffic way. The mayor has suggested that a special committee visit Chicago and investigate the plan in operation there whereby the city, in partnership with the traction company, gets 55 per cent of the net earnings with the right to purchase the lines at actual value. The mayor would reserve the right to reduce fares.

This is the basis on which he has suggested the Metropolitan franchises might be extended—the expected profits accruing to the city's interest to provide revenue to build traffic ways and other things. In advance of a realization of this revenue it is not known as yet where the city will get money to pay into court to get possession of the ground and do the grading for the traffic way, should it be decided to start over and exercise the right of eminent domain under the new charter. Mayor Crittenden had no new information to add to the subject yesterday. It is understood that the partnership suggestion is discussed in its various aspects at conferences outside the city hall.

MODERATION IN CALIFORNIA.

The Legislators Apparently Have Changed Their Attitude on Jap Bills.

SACRAMENTO, CAL., Feb 11.—Moderation on the part of legislators and an evident disposition finally to dispose of all measures relating to Japanese and other aliens characterized the day's session of the legislature. The assembly voted to appropriate $10,000 to defray the expenses of a census to show the number of Japanese in California and the pursuits in which they are engaged. The statistics are to be used in consideration of future legislation, possibly involving a request by California for an Asiatic exclusion act.

In the senate a resolution by Senator Marc Anthony providing for a special election wherein the voters of California might express themselves on the subject of Asiatic immigration was defeated by a vote of 22 to 12

THE NAVY BILL WAS HELD UP

YOUNGER SENATORS WANT TO KNOW ABOUT POLITICAL YARDS.

Senator Hale's Plan Was to Rush the Appropriation Measure Through, but Mr. LaFollette Was on the Job—To Act Monday.

WASHINGTON, Feb. 11.—The plan of Senator Hale and the committee on naval affairs, of which he is chairman, to rush through the naval appropriations bill practically without debate, was blocked in the Senate this afternoon by Senator La Follette. Under his protest the bill went over until Monday, when it will receive more careful scrutiny than would have been possible had it been hurried through this afternoon according to the programme.

Since public attention was called to the political navy yards in the current issue of McClure's magazine, a group of the younger Republican senators has been eager to inquire into the navy yard appropriations. They were unable to get any information as to what Senator Hale's committee proposed to do, however, except that there was a general suspicion, which proved well founded, that the committee had increased the House appropriations for each of the political yards.

PROVISIONS PUBLIC YESTERDAY.

The general provisions of the bill were first made public yesterday and printed copies were not on the desks of the Senators until this morning. As the measure carries appropriations of 137 million dollars, it was a physical impossibility for men unfamiliar with the subject to familiarize themselves with the matter sufficiently to discuss it intelligently to-day. Besides, several of the expected critics, including Borah of Idaho, were out of town attending Lincoln celebrations.

Senator Hale, however, hoped to avoid all foolish inquiry and delay by getting a vote this afternoon. Therefore he moved that the reading of the bill be dispensed with to save time and that it be open to debate subject to amendment—amendments from his committee to have precedence—and that a vote be taken before adjournment to-night.

LA FOLLETTE RAPPED HIS SENIORS.

LaFollette was on his feet in an instant, objecting. He called attention to the fact that several senators who were interested in the measure were out of town, and suggested that the time proposed by Mr Hale was too short to enable outsiders to scrutinize the measure with care. In reply to the Maine senator's contention that it was late in the session and there was need of haste, he retorted that the great committees would not be nearly so overworked were there a more equitable distribution of committee places But while a few senators monopolized all the important committees there was inevitably haste, overwork and confusion.

Having handed the elder statesman these few cogent thoughts, Mr LaFollette sat down. There was evidently deep disgust at the impertinence of the young members who were so brash as to question any action of their seniors, but under the rules there was no help for it The Senate adjourned until Monday and the naval bill was postponed.

A SENATOR SPENT $107,793.05.

Stephenson of Wisconsin Files His Primary Expense Account.

MADISON, WIS, Feb. 11.—An official statement by Senator Isaac Stephenson shows to-day that the expense of his candidacy for the nomination of United States senator at the primary election was $107,793 05.

The largest single item is $53,729 56, which was paid to C. M. Hambright, John C. Miller, E. H. McMahon, E. J. Rogers, U. C. Keller and others for services tendered in organizing outside Milwaukee county. The next big amount is $16,485.24, paid to an advertising agency and others for newspaper advertising. For postage he spent $11,390. Printing and engraving firms were paid $7,347 69. Office rent, expenses, including employees' wages, amounted to $4,070 76.

NEW YORK, Feb. 11.—Early last summer T. Gilbert White, the artist and portrait painter, met Miss Mary P. Geary. He read her palm and told her that she would not be married for several years.

MRS T. GILBERT WHITE.

Last night Mr. White and Miss Geary were married here. They will live in Paris.

A THEATRICAL MANAGER DEAD.

John W. Albaugh Succumbed to Heart Disease in New York.

NEW YORK, Feb. 11.—John W. Albaugh, the widely known theatrical manager, died of heart disease following an attack of acute indigestion at the home of his daughter, Mrs. Frank Henderson, in Jersey City to-day. He was 73 years old. Mr. Albaugh, in his earlier days an actor, managed the Holiday Street and Albaugh theaters in Baltimore, and built the Grand Opera house and the Lafayette Opera house in Washington.

LOTS ON MAIN GO AT AUCTION

PROPERTY OF THE HUNTEMANN ESTATE BROUGHT $130,900.

Besides the Downtown Real Estate the Vernon County Man Owned a South Side Home and Other Land—The Sale at the Courthouse.

Five pieces of property owned by the heirs of the late Adolph Huntemann were sold yesterday at public auction for an aggregate sum of $130,900. H. C. Timmonds, a Kansas City attorney, who was appointed by the Vernon county, Missouri, circuit court, was the auctioneer, and the property went to the highest bidders. A list of the sales follows:

Twenty and one-half feet at 980 Main street, occupied by the W. L. Douglas Shoe company, purchased by E. W. Smith for	$42,700
Twenty feet at 984 Main street, occupied by Arthur L. Jelley, tailor, purchased by Frederick Heindorf and John Henry Kappenberg for	43,000
Forty-nine and one-half feet on Walnut street, at the corner of Fifteenth street, vacant, purchased by W. H. Otto for	35,000
Twenty-four feet at 1404 St. Louis avenue, occupied by a frame building, purchased by H. T. De Vol for	6,000
Fifty feet at 4025 McGee street, the Huntemann home, occupied by a 9-room modern house, purchased by E. N. Cuddy for	6,660

A large crowd attended the sale. Mr. Timmonds stood at the south door of the county courthouse. The bidding for the Huntemann home was the most spirited. The property in the West bottoms was not so much in demand The auctioneer was disappointed at the prices he received for the Main street property. The appraisers who assessed the value of the Main street property for collateral inheritance tax purposes placed its value at about $25,000 in excess of what the two pieces brought at the sale.

The Huntemann estate is valued at about $400,000. Because 400 acres of the estate, the largest in any one tract, lay in Vernon county, the partition suit for the benefit of the heirs had to be brought there. The law required it Mr. Huntemann died in March, 1907, at the age of 74 years. He left no will and only distant heirs were found in Germany after diligent search

HE REVIVED FORGOTTEN OPERA.

Lind, Who Produced Mendelssohn's "Return of the Roamer," to Come Here.

This week when the musical world is celebrating the 100th anniversary of the birth of Felix Mendelssohn-Bartholdy, no one seems to remember one of the only two operatic works ever completed by Mendelssohn, "*Heimkehr aus der Fremde*" —in English, "The Return of the Roamer." Homer Lind, who will appear at the Orpheum theater next week in a 1-act musical classic, is the only singer who has produced this little opera in America He hopes to give it again next season in vaudeville

"The Return of the Roamer" was given by Mr. Lind in 1903 in New York Like a great many other operatic productions, it did not live long in spite of its fair success.

"The Red Face"

A Little Sermon on Soap

DOCTORS call it "Hyperæmia."

Too much blood in the Skin,—a sort of congestion, through distended blood vessels,—excess of *Surface* circulation.

Can it be controlled?

Yes, assuredly—by correct treatment and a little attention

"Resinol," for instance,—the Skin-Specific,—has this peculiar quality of stimulating the smaller vessels of the Skin, and soothing the surplus blood back to its proper local circulation.

It is to this control of Hyperæmia, and to its anodyne quality of securing "Therapeutic Rest," that Resinol owes, in part, its wonderful success with Physicians in treating obstinate Skin Diseases and Sluggish Sores that other treatment fails to heal.

The "Resinol" in this Soap not only makes it healing, soothing, nutrient, and delightfully comforting to the Skin, but it also makes that Soap Antiseptic—"Surgically Clean," and free from all collected or transmitted Disease-Germs.

This fact is tremendously significant at a time when Physicians claim that ordinary Soaps are often hot-beds for the breeding of Bacteria and a prolific source of Skin-Disease contagion.

* *

Resinol Soap makes a bland, creamy, soothing lather rich in *Nutrients* that feed the Skin into a smooth, unwrinkled Satin-like condition of health.

It heals the slight scratches, sunburns, wind-chaps, and chafings that form a foothold for infection with current Skin diseases.

Its constant use lessens the hyperæmic condition of over-florid skins, while daily massage with its creamy lather will bring more color to the Anæmic or over-pale face.

Resinol Soap has a faint fragrance like that of real, old-time Russia Leather, and its use leaves "a pleasant farewell after it."

For Toilet, Bath, Shaving, Hair-washing, and Baby's use, it has no equal.

Dyspepsia

and Indigestion are very quickly stopped when your food begins to digest. Kodol digests all you eat.

Of course nothing goes right when your stomach is all wrong. Your system is overloaded in spots and underfed in others. It requires all your attention. Your head is heavy. Maybe it aches. You feel dull. You don't really care if you succeed or not and you mostly don't.

What you need is Kodol; you have dyspepsia.

It is useless to try to make the stomach do what it can't. Might as well crank your auto after the gasoline is burned out. Far more sensible to whip a tired horse. He will go till he drops. The stomach won't. It stops when it is tired and makes you a lot of trouble.

Maybe you don't weary it with too much work. Perhaps it has a notion of kicking about certain kinds of food. Fats perhaps. Starch most likely. Albumen possibly.

Kodol digests all you eat.

Funny thing Almost all digestants are made to digest albumen only. Seem to forget all about fats, phosphates, starch and the rest. Acid makes as much trouble as anything. Why not make a digester that will do more?

It was hard work to get Kodol right.

Unless it could be made to digest any food anywhere in the digestive tract we did not want to make Kodol.

Unless it could do more than any digester known—even Nature's—we didn't want to offer Kodol.

Hard scientific work did it. Made Kodol. Made Kodol so perfect that we can guarantee it. We claim that Kodol will do all the work of a healthy digestive apparatus. That it digests any food anywhere, at once and entirely. It does more than Nature because she is limited in place—Kodol isn't.

There is no halfway work about Kodol. It is a tonic without being a stimulant. It quiets without containing a bit of narcotic.

It rests and Nature cures.

It works partly by increasing the secretion and flow of the digestive juices, partly by actually preparing undigested food for proper natural assimilation. But it does all the work. It does not stop with a single class of foods in a certain place. It takes them anywhere. Hunts till it finds its work and then does it.

Don't say again that you can't eat everything.

It is nothing to be proud of. It means that you have abused your stomach knowingly and ignorantly. That you are not willing to help Nature repair the damage. That you'd rather starve yourself by depriving your system of some variety of nourishment it needs. That is what dieting really means—half starvation.

With Kodol at hand, such treatment is worse than useless. It is criminally careless. The way to gain digestive strength is to help the digestive apparatus, not to quit using it.

Try Kodol. You will begin to believe in it as soon as you swallow it. You will feel it working at once. It loses no time. The wonder will be why you waited.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money. We will then repay the druggist. This offer applies to the large bottle and to but one in a family. Do not hesitate. Every druggist knows our guarantee is good.

The dollar bottle contains 2½ times as much as the fifty cent bottle. Kodol is made at the laboratories of E. C. DeWitt & Co., Chicago.

A LINCOLN SESSION TO-DAY

OVERNOR HADLEY WILL ADDRESS THE JOINT LEGISLATURE.

fter a Programme Many Legislators and the Governor Will Come to Kansas City—A Bill to Reduce Pullman Charges.

JEFFERSON CITY, Feb. 11.—After a regular knock down and dragging out morning session, the result of a resolution attacking the report of the board of curators of the state university and the invasion of the house by the W. C. T. U. the visitors were hoping for a lively afternoon session. They were disappointed because the afternoon seance was as tame as the wild man in the side shows.

A few bills were introduced, after which the house adjourned until 9:30 o'clock to-morrow morning. Very little business will be transacted to-morrow on account of the Lincoln memorial exercises. These will consist of an address by Governor Hadley, and the Rev. William J. Williamson of St. Louis, formerly of Kansas City, who will deliver the principal address, band music by the cadet band of Columbia, singing by the Choral society of the house and incidental features.

MEMBERS TO KANSAS CITY.

At the close of the exercises Governor Hadley and many members of the legislature, office holders, and other Republican politicians will leave for Kansas City to attend the annual banquet of the Young Republicans of Missouri. It is expected that many St. Louis Republicans will journey to Kansas City.

Hicks of Kansas City is in favor of reducing the revenue of the Pullman company in the state of Missouri. He introduced a bill providing for a general shaving of their present schedule. If the bill becomes a law the rate for a seat between Kansas City and St. Louis will be seventy-five cents instead of $1. Lower berths will be reduced from $2 to $1.25 with a proportionate reduction for upper berths. The tourist car rate must be only 50 per cent of those of the standard cars. The penalty for violating this law will be a fine of from $100 to $1,000, thirty days to six months in jail or both.

TO FURNISH SCHOOL TEXT BOOKS.

Barker of Macon introduced three bills relating to public schools. One would prohibit any person from teaching in the public schools for less than $40 a month. The second makes it optional for boards of directors of common school districts, and boards of education of city, town or village schools, to loan text books, school supplies and other materials used for school purposes to pupils unable to purchase them. This will be done at the expense of the school district. The third bill gives women the right to vote for members of boards of directors or on any other question submitted at any school election.

TWO FISH AND GAME LOBBYISTS.

There for the "Love of Country," They Wrote on the Jefferson City Register.

JEFFERSON CITY, Feb. 11.—Two champions of a good game and fish law entered their names late to-night on the lobby register in a rather unusual manner. Under the subheading, "By whom employed?" Berryman Hawood entered, "Nobody—love of my country." As to his business with the legislature, he penned the following: "To give Missouri an up-to-date, modern game and fish law; to identify Hannibal with all progressive legislation." He was followed by J. W. Hayes, who certified that he is here "for love of country, home and mother," and then made this entry explaining his business with the legislature: "On the enactment of a good, up-to-date game and fish law so that we Democrats will not have to convince the world that we are not mossbacks. I am for Senator Prendergast."

Taylor of Chariton introduced a bill providing for a half rate on all telephone lines in the state between the hours of 6 o'clock at night and 6 o'clock in the morning. It seeks to re-establish the night rate abolished two years ago by the long distance telephone companies.

WOMEN TALKED TO LAWMAKERS.

Yesterday Was W. C. T. U. Field Day in Jefferson City.

JEFFERSON CITY, Feb. 11.—The W. C. T. U. made a field day with the legislature to-day and ended with a mass meeting in Representative hall to-night. The women had been holding a meeting at Fulton and came in a body to talk to the legislature. They are pushing the proposed constitutional amendment providing for statewide prohibition and said that was the one measure in which they were interested.

The sentiment to submit the prohibition question to a vote of the people is already strong in the house and strong enough in the senate to make its submission a probability if the matter ever comes to a vote.

Before the meeting in Representative hall there came near being a line drawn on the liquor question on account of a motion made by Representative Lloyd of St. Louis that the house take a recess. The women had desired to address the legislature when it was actually in session and Crossley quickly protested against the house adjourning until it had heard what they had to say. Crossley was sustained.

RIVER POWER IN KANSAS TOWNS

Junction City Has Granted a Franchise for Electric Lights.

JUNCTION CITY, KAS., Feb. 11.—At a special meeting of the city council last night the Rocky Ford Milling and Power company was granted a franchise for the furnishing of power and lights for this city. The company is now at work on a large dam across the Blue river near Manhattan, twenty-six miles from here, and it is the intention of the company to furnish electric power at Manhattan and Fort Riley also.

Beardsley to Address Federal Convicts.

LEAVENWORTH, KAS., Feb. 11.—Ex-Mayor Henry M. Beardsley of Kansas City will deliver a Lincoln day address before the convicts at the federal prison here to-morrow. The holiday will be observed at the prison.

FRIDAY, FEBRUARY 12.

WHAT A FRANCHISE IS WORTH.

After squeezing out 73 million dollars of "water," the actual cash value of the Chicago street railways was fixed at 50 million dollars.

In the partnership contract between the city of Chicago and these railways the city put into the partnership only the franchise rights to use the streets for twenty years, and the traction companies put in the 50 million dollars of actual physical property.

In the division of partnership profits the city gets 55 per cent and the street railway corporation gets 45 per cent

The franchise is thus valued at 25 per cent more than the whole street railway plant of Chicago

SHOULD Philander Chase Knox be found ineligible to hold the office of Secretary of State until 1911, Mr. Taft's loss would not be without the compensation of enabling Pennsylvania to retain the only really creditable United States Senator it has had in recent years.

A "CRIMP" FOR THE LOAN SHARKS.

If the Casey bill would strengthen the state in its attitude toward the loan sharks, as its author believes it would, it should be passed by the Missouri Legislature. It would seem to be entirely within the powers of the state to outlaw the lending of money on unearned wages, or the "buying" of such wages. But unless proper penalties are provided for violation of the law, an opportunity would still be left for the usurers to impose on wage earners who would submit to extortion rather than be exposed as sellers of wages If Missouri modifies its present law affecting the loan sharks it should make the modification strong enough to put these conscienceless hogs out of business.

THE news from Topeka that the Public Utilities law in that state will have no serious opposition in the Legislature marks the distinction between the present Legislature and that of two years ago. The same bill in the last session would have had but little serious support.

THE GOVERNMENT'S INTEREST IN THE UNEMPLOYED.

The plans now forming for the expansion of the Department of Commerce and Labor in such a way as to keep that department informed at all times as to the approximate number of idle workmen, their location and equipment, and as to the demand for labor in various parts of the country, should result in a more equitable distribution of labor—and this would be as advantageous to employers as to employees. It is in keeping with the spirit and avowed purposes of the Department of Commerce and Labor that it should maintain what would practically amount to a national employment bureau. At least it should aim, so far as its scope and facilities can be made to serve, to supply both the idle and those seeking for laborers with the best information obtainable along the lines desired.

In the end, however, the Federal government should keep in progress—especially at times when the unemployed are most numerous—certain public improvements demanding laborers in large numbers. Right at this time, for example, if the government would authorize the issue of bonds for the completion of a great inland waterways system by expending 50 millions a year, some great purposes aside from the urgent main purpose of perfecting such a system would be served. It would soon give work to the unemployed and it would go far toward distinguishing the unwilling idle from the willing—a distinction that is very essential from the sociological point of view.

THEN there is another reason why Kansas City and other American cities have such efficient fire fighters. That is that the firemen get so much practice. Our municipalities permit such flimsy and unsafe construction of buildings that fires are frequent and firemen simply have to be proficient. In London and Paris and Berlin and other European cities they have "slowcoach" fire departments—as a testimony to the infrequency of fires.

GOOD ROADS BILLS IN KANSAS.

If the House of Representatives of the Kansas Legislature should pass the Case road bills at the session next Monday morning, at which time they will be placed on "special order," it would end all doubt as to good roads legislation this session. The Case bills provide for a state engineer and for county engineers and fix a tax upon automobiles to pay the salaries and expenses of such officers

The Case bills are intended to establish in Kansas a uniform system of good dirt roads. Much of the objection to good roads in that state comes from the mistaken idea that all good roads legislation is intended to levy upon the land owners a tax to build macadam roads The intent of the Case bills is to provide for modern dirt roads constructed under the supervision of a competent engineer. Only one section of the bills refers to macadam roads and that section provides that where any road district votes to build macadam roads it may do so at its own expense.

If the House adopts the Case bills it will actually save the people of Kansas no less than a ½ million dollars annually in the expenditure of the road fund which is now wasted. The law provides that dirt roads shall be made permanent roads. It means that the roads built this year will not have to be rebuilt next year, and the money expended to improve them will not be wasted.

The Case bills should both be adopted by the Kansas House.

A BILL introduced in the Kansas Legislature by Robert Stone of Topeka requires all natural gas companies supplying cities with light and heat to keep in storage tanks enough gas to supply the city for three days based upon the demand during weather when the mercury is fifteen degrees above zero. The gas companies are fighting the bill on the plea that they could not afford to build the tanks. Is there *anything* the gas companies *can* afford to do in order to supply their customers with gas when gas is needed?

THE CART AND THE HORSE.

Now that it is proposed to Kansas City to put the cart before the horse and make a new street railway franchise rest on a West Traffic way, remember:

All the city will not trade away its most valuable asset, the traction use of all its streets, for a Twelfth street benefit to the Metropolitan.

Perhaps Swope park ought to get a million or so.

There are other traffic ways to be built as the city grows.

Other lines will need extensions and more cars.

The people will want lower fares instead of relieving property owners in one locality of taxes for special benefits to that locality.

Considerations like these are always arising.

So *Kansas City will simply not put the cart before the horse.* Instead of treating a possible street railway deal on the basis of a "swap" for one *or more* things, it will treat it in the following way—if it treats it at all:

The city will form its partnership of control and profit sharing *first.* And then any need for viaducts, for subways, for underground trolleys, for lower fares, for developing Swope park or for anything else arising out of its street railway situation will be settled as an incident to that contract.

This is the Chicago way, and it is the only square deal, business way.

THE CHARGE AGAINST M. S. U.

It is particularly incumbent on the people of Missouri to withhold judgment in the case of the Missouri State University, some of whose officers are, somewhat loosely, charged with graft by a member of the Legislature, unless the charges can be sustained. "Graft" is an ugly word, and it seems incredible that it could be justly applied to a great institution like the Missouri State University. It is needless to say that the officers of that institution will not only welcome, but will demand a complete investigation.

Theater Censorship.

At least one New York manager sees the theatrical censorship handwriting, and it is particularly interesting that this manager happens to be Mr. Charles Burnham, president of the Theatrical Managers' association of that city and manager of Wallack's theater. If he had his way, says Mr. Burnham, five New York theaters now running would have to close their doors because of the obscene attractions they are offering.

And why should he not have his way? The responsibility rests with the managers, not, as Mr. Burnham says, with the public. For if the argument presented by Mr. Burnham were sound, then a manager would be justified in offering to the public any kind of exhibition, no matter how vile, so long as he could show that a profitable portion of the public came to see his exhibition.

Now either Mr. Burnham will have his way; either there will be a rational censorship, or a code of ethics voluntarily entered into by the managers answering the same purpose as a censorship, or the decent public will retaliate and hamper the theater and all producers in a hurtful way. No possible reaction would close all theaters. But reaction, once under way, might hinder legitimate as well as indecent productions by going to extremes. The brewers and the whisky men have put themselves out of business in some states and in large sections of many states, and the race track people have outlawed themselves in nearly all states, simply because these men have defied public decency by tolerating abuses and encroaching on public rights when, even from the standpoint of selfish interest, they should have welcomed rational restraints instead of opposing them. There may be national prohibition, and race betting will almost certainly be wholly abolished; but the theater will not be destroyed

However, the theater may be seriously handicapped for many years if the license assumed by some of the producers is not checked by some agency within the theatrical business or profession. Even the hazard of official censorship, which has never worked satisfactorily in any country, would be welcomed as an alternative for the present run of indecent exhibitions. And the place for the managers to inaugurate internal reform is New York city, which is still the chief source of new productions.

IN its efforts to keep track of Governor Haskell's multiplicity of troubles the country has lost sight of Colonel Ham Bee, who "set to music" the Governor's campaign songs before the cruel war was declared between Editor Hearst and Mr. Haskell. Is the world to suffer the loss of the soothing influence of the music of the sweet singer of Ardmore as a result of this Hearst-Haskell feud? Where is Colonel Ham Bee, anyway?

WHATEVER the correct interpretation of the federal constitutional provision may be regarding the salary clause recently discovered by the eminent authorities in Washington, it is certain that the "constitutional fathers" never intended to keep a man like Senator Knox out of a President's Cabinet.

THE Western Union Telegraph company, in the matter of putting its wires underground, promises to make an offer "so reasonable that the city will not hesitate to accept it." Kansas City ventures to hope, therefore, that the proposition will have the "jokers" reduced to a minimum.

ALTHOUGH the cruiser bearing Mr. Taft, the President-elect, was in Tuesday's storm in the Gulf of Mexico, little anxiety was felt for his safety. No vessel as well ballasted as the one with Mr. Taft on board has much to fear from the waves.

THERE was an "acrimonious" debate in the Missouri Legislature yesterday, indicating that the Kansas Language is obtaining a foothold in Jefferson City.

A LONG distance forecast announces that a cold wave will reach Kansas City Saturday night or Sunday. This time, perhaps, skeptics will take the Weather bureau's word for it.

THE Chicago plan of regulating street railways may be all right, but what has that to do with the West Traffic way?

Pure ice is not.

To The Star: Which is correct, "up to-date" or "down to date?" I mean the popular expression. Mrs. J. K., Bonner Springs, Kas.

There should be no preference in the matter. Either expression is bad usage. The first form is used more generally than the second.

To The Star: Has the Metropolitan Street Railway company a franchise to extend the Prospect avenue line to Swope park? If so, are they required to have cars running there this year?
READER, Kansas City, Kas.

Under the peace agreement the extensions of car lines are made by ordinance of the city council with the requirement that consent of a majority of property owners shall be given. The ordinance for the extension of the Prospect avenue line provided that it should be in operation to Thirty-ninth street by December, 1908, and that it should be in operation to a connection with the Swope park line by December, 1909. The Metropolitan is now running one car from Thirty-ninth street to make a connection with the Swope park line.

He turned back to help his brother and was himself shot. Emmett was sentenced to life imprisonment, March 8, 1893. He was paroled to permit treatment of the gunshot wound in his right arm, suffered in the Coffeyville raid. LINCOLN'S BIRTHPLACE.

IN KANSAS CITY FORTY YEARS AGO.

From the Kansas City Times, February 12, 1869

Somebody had one of those 2-wheeled horses in the city a few days ago, commonly called velocipedes It was put up in running order in Harlem, but the gentleman who proposed riding it failed to accomplish the feat with any success. The velocipede was taken into Kansas.

The ferry boat Hattie Weller was yesterday engaged in transporting from Harlem to this side of the river two handsome engines for the Fort Scott railroad. There are also some forty cars at Harlem to be transferred across the river for that railroad. The ferry boat is now busily engaged in bringing them over.

Our young neighbor across the way, the city of Harlem, is a town of continued activity and business. It is flourishing finely under the wings of Kansas City. The large number of railroad trains constantly running into that city and the immense amount of freight daily received there makes Harlem a live place; and those in business there seem to enjoy a very good trade.

The city editor of the Bulletin in his opening chorus, thusly expresses his determination to "float" upon an independent platform. "This paper is to rock along on an independent platform. The proprietors have got the disease bad and we have caught it Then be it understood, the city editor of the Bulletin is expected to rattle around on this page in a perfectly rampant, unmuzzled, irrepressible and independent style."

Hon. John Doniphan of Platte, attorney for the Missouri Valley railroad, was in the city yesterday en route for Jefferson City. From him we learn that the Missouri Valley railroad will be completed to this city on Thursday of next week. This will make the seventh railroad terminating at this place Boston can no longer be called the "Hub of the Universe," for Kansas City, being the geographical center of the continent, has become the hub and the great railroad center, drawing the immense trade of the most productive portion of the continent to her bosom and enriching all those engaged in the various branches of trade to a degree which must be envied by all our neighbors in surrounding towns, which in days past struggled for that supremacy now enjoyed by Kansas City.

THE BRAHMIN CASTE OF NEW ENGLAND.

From "Elsie Venner," by Oliver Wendell Holmes.

THERE is nothing in New England corresponding at all to the feudal aristocracies of the Old World. Whether it be owing to the stock from which we were derived, or to the practical working of our institutions, or to the abrogation of the technical "law of honor," which draws a sharp line between the personally responsible class of "gentlemen" and the unnamed multitude of those who are not expected to risk their lives for an abstraction—whatever be the cause, we have no such aristocracy here as that which grew up out of the military systems of the Middle Ages.

What we mean by "aristocrat" is merely the richer part of the community, that live in the tallest houses, drive real carriages (not "kerridges"), kid glove their hands and French bonnet their ladies' heads, give parties where the persons who call them by the above title are not invited, and have a provokingly easy way of dressing, walking, talking and nodding to people, as if they felt entirely at home and would not be embarrassed in the least if they met the governor, or even the President of the United States, face to face. Some of these folks are really well bred, some of them are only purse-proud and assuming—but they form a class, and are named as above in the common speech.

It is in the nature of large fortunes to diminish rapidly when subdivided and distributed A million is the unit of wealth now and here in America. It splits into four handsome properties; each of these into four good inheritances; these, again, into scanty competences for four ancient maidens—with whom it is best the family should die out, unless it can begin again as its great-grandfather did. Now a million is a kind of golden cheese, which represents in a compendious form the summer's growth of a fat meadow of craft or commerce; and as this kind of meadow rarely bears more than one crop, it is pretty certain that sons and grandsons will not get another golden cheese out of it, whether they milk the same cows or turn in new ones. In other words, the millionocracy, considered in a large way, is not at all an affair of persons and families, but a perpetual fact of money with a variable human element, which a philosopher might leave out of consideration without falling into serious error. Of course this trivial and fugitive fact of personal wealth does not create a permanent class unless some special means are taken to arrest the process of disintegration in the third generation. This is so rarely done, at least successfully, that one need not live a very long life to see most of the rich families he knew in childhood more or less reduced and the millions shifted into the hands of country boys who were sweeping stores and carrying parcels when the now decayed gentry were driving their chariots eating their venison over silver chafing dishes, drinking Madeira chilled in embossed coolers, wearing their hair in powder and casing their legs in long boots with silken tassels

There is, however, in New England, an aristocracy, if you choose to call it so, which has a far greater character of permanence. It has grown to be a caste, not in any odious sense, but, by the repetition of the same influence, generation after generation, it has acquired a distinct organization and physiognomy, which not to recognize is mere stupidity, and not to be willing to describe would show a distrust of the good nature and intelligence of our readers, who like to have us see all we can and tell all we see.

If you look carefully at any class of students in one of our colleges, you will have no difficulty in selecting specimens of two different aspects of youthful manhood. Of course I shall choose extreme cases to illustrate the contrast between them. In the first, the figure is perhaps robust, but often otherwise—inelegant, partly from careless attitudes, partly from ill dressing—the face is uncouth in feature, or at least common, the mouth coarse and unformed, the eye unsympathetic, even if bright, the movements of the face are clumsy, like those of the limbs, the voice is unmusical, and the enunciation as if the words were coarse castings, instead of fine carvings The youth of the other aspect is commonly slender—his face is smooth, and apt to be pallid,—his features are regular and of a certain delicacy,—his eye is bright and quick—his lips play over the thought he utters as a pianist's fingers dance over their music—and his whole air, though it may be timid, and even awkward, has nothing clownish. If you are a teacher, you know what to expect from each of these young men. With equal willingness, the first will be slow at learning; the second will take to his books as a pointer or setter to his field-work.

The first youth is the common country boy, whose race has been bred to bodily labor Nature has adapted the family organization to the kind of life it has lived. The hands and feet by constant use have got more than their share of development—the organs of thought and expression less than their share. The finer instincts are latent and must be developed. A youth of this kind is raw material in its first stage of elaboration. You must not expect too much of any such. Many of them have force of will and character, and become distinguished in practical life; but very few of them ever become great scholars. A scholar is, in a large proportion of cases, the son of scholars or scholarly persons.

That is exactly what the other young man is. He comes of the Brahmin caste of New England. This is the harmless, inoffensive, untitled aristocracy referred to, and which many readers will at once acknowledge. There are races of scholars among us, in which aptitude for learning, and all these marks of it I have spoken of, are congenital and hereditary. Their names are always on some college catalogue or other. They break out every generation or two in some learned labor which calls them up after they seem to have died out. At last some newer name takes their place, it may be, but you inquire a little and you will find it is the blood of the Edwardses or the Chauncys or the Ellerys or some of the old historic scholars, disguised under the altered name of a female descendant

There probably is not an experienced instructor anywhere in our Northern states who will not recognize at once the truth of this general distinction. But the reader who has never been a teacher will very probably object, that some of our illustrious public men have come direct from the home-spun-clad class of the people—and he may, perhaps, even find a noted scholar or two whose parents were masters of the English alphabet, but of no other.

It is not fair to pit a few chosen families against the great multitude of those who are continually working their way up into the intellectual classes. The results which are habitually reached by hereditary training are occasionally brought about without it. There are natural filters as well as artificial ones, and though the great rivers are commonly more or less turbid, if you will look long enough, you may find a spring that sparkles as no water does which drips through your apparatus of sands and sponges. So there are families which refine themselves into intellectual aptitude without having had much opportunity for intellectual acquirements. A series of felicitous crosses develops an improved strain of blood, and reaches its maximum perfection at last in the large uncombed youth who goes to college and startles the hereditary class leaders by striding past them all. This is Nature's republicanism; thank God for it, but do not let it make you illogical The race of the hereditary scholar had exchanged a certain portion of its animal vigor for its new instincts, and it is hard to lead men without a good deal of animal vigor. The scholar who comes by Nature's special grace from an unworn stock of broad-chested sires and deep-bosomed mothers must always overmatch an equal intelligence with a compromised and lowered vitality. A man's breathing and digestive apparatus (one is tempted to add muscular) are just as important to him on the floor of the Senate as his thinking organs. You broke down in your great speech, did you? Yes, your grandfather had an attack of dyspepsia in '82, after working too hard on his famous Election Sermon. All this does not touch the main fact: our scholars come chiefly from a privileged order, just as our best fruits come from well known grafts—though now and then a seedling apple, like the Northern Spy, or a seedling pear, like the Seckel, springs from a nameless ancestry and grows to be the pride of all the gardens in the land

OKLAHOMA NOTES.

Oklahoma City claims that its population now is 45,000 and that the increase last year was 6,500.

The demand for residences in Kingfisher is so much greater than the supply that thirty applicants tried to get the same house last week.

R. R. Holt of Rolla, Mo., will establish a newspaper in Owasso and is trying to find a good name for it. The Owasso Ossawo has been offered and rejected.

Ex-Governor T. B. Ferguson is enjoying the life of a prosperous country editor. His Watonga Republican is a money maker and its editor goes fishing or attends a baseball game whenever he feels like it.

Andrew Carnegie has offered to give half the cost of a $2,000 pipe organ for the Bartlesville Presbyterian church, and will give $750 to the Methodist church for a $1,500 pipe organ. Bartlesville thinks the laird of Skibo castle is a great piper.

Aroused at 5 o'clock in the morning by a noise in his barn, Colonel Joseph C. Mitchell of Tulsa went to find the cause and upon opening the door was upset and run over by two tramps. Two of the colonel's ribs were broken. He said that for a moment he feared his mules had stampeded.

The Tulsa World makes this unusual newspaper announcement: Thoroughly conscientious in its efforts to conserve the moral and material welfare of the community, and unwilling to, in any manner, throw anything in the pathway of a moral uplift, the Tulsa Daily World has cancelled all of its advertising contracts with whisky houses and hereafter will accept no such advertising patronage on any terms.

"Last Monday nineteen new pupils appeared at the schoolhouse for admittance to the public schools of Waurika," says the News. "The rooms were already crowded. Prof. Storms called on the school board and asked what to do. The board hastily decided to open school in Prof. Storms's small office and recitation room and called on Mrs. Storms, an experienced teacher, and offered her a position as an extra teacher. She accepted the place and the superintendent was instructed to rearrange the rooms accordingly."

LINCOLN.

Chained by stern duty to the rock of State,
His spirit armed in mail of rugged mirth.
Ever above, though ever near to earth,
Yet felt his heart the cruel tongues that sate
Base appetites, and foul with slander wait
Till the keen lightnings bring the awful hour,
When wounds and suffering shall bring them power.
Most was he like to Luther, gay and great,
Solemn and mirthful, strong of heart and limb,
Tender and simple, too; he was so near
To all things human that he cast out fear,
And, ever simpler, like a little child
Lived in unconscious nearness unto Him
Who always on earth's little ones hath smiled.
—*S. Weir Mitchell.*

"TIDINGS OF THE TIMES."

Consider now the hobo man—
How perkily he'd perk
Could we but cross his appetite
For food with that for work.

The fact that Senator Gore is fond of the theater should excuse speaking of him once, at least, as a theater Gore.

THE ARTISTIC TEMPERAMENT.

"Though in a commercial house he has the artistic temperament."

"He has? Gee, I wish I hadn't lent him that ten"

THOUGHT IT WORKED BOTH WAYS.

In an effort to make his rather careless nephew attentive to grammar an East side man offered the youngster a nickel every time he caught him, the man, in any sort of a grammatical blunder. The boy, being vastly different from most boys, likes nickels and what they buy, and thereafter gave to his uncle's utterances the most flattering attention. To encourage him the man purposely makes a slip now and then, and the other day the boy caught him red—er—tongued and received the promised coin. A few minutes later the boy remarked:

"You oughta saw papa—"

"'Seen,' Lonny," corrected his uncle.

"You sure?" asked Lonny, crest fallen.

"Of course."

"All right, then (regretfully), but I didn't think you'd try so hard to win yer nickel back."

MAKING MONEY

Making money isn't living
Isn't knowing life at best,
Isn't thrilling to the noble
And heroic in your breast,
Isn't climbing toward the standard
That your dreams set long ago,
Isn't growing ever broader,
As a man should try to grow,
Isn't doing something better
Than the rabble of your time,
Isn't following the pathway
To the heights that are sublime,
Isn't winning love and friendship
Except such as toadies give—
Don't keep merely making money
If you want to truly live—
Help a brother, help another,
Make life brighter, that's the call—
What to that is making money?
Making money, that is all.

Baked Beans as a Salad.

From the Delineator.

Baked beans make a good salad. Mix a cupful of baked beans (cold) with two tablespoonfuls of oil and one tablespoonful of vinegar. Add also a teaspoonful of paprika, salt if necessary, and a tablespoonful of chopped shallot Let stand one hour, turn onto a serving dish, surround with shredded lettuce and serve. Additions can be made to the salad, such as olives (cut in halves), tiny cucumber pickles or cubes of pickled beets.

6,300 Pairs of Boston-Bought Shoes for Men, Women and Children, From 2/3 to 1/2 Value!

Walnut St. Basement Store. ⋙→ Order by Mail.

SOON after the first of January our shoe manager made a trip East to the celebrated shoe-making centers around Boston. He found the shoe trade in a position to entertain almost any fair proposition if it involved turning their made-up stocks into cash at once.

One maker of good shoes had countermanded orders which he must dispose of—

Another good maker had lines of samples which his salesmen had just finished using—

Another maker had orders which he had made up—*but finished too late for shipment.*

Practically every shoe factory had some stock of good, new worthy shoes which could be bought for one reason or another "at a price" if the transaction involved *cash.*

As *every* transaction involves cash with this *cash store,* we bought good Shoes in Boston and paid but two-thirds to one-half their value for them.

In this Three-Day Basement Shoe Sale the savings we effected by our great quantity purchases for cash are to be turned over to our Big Basement cash customers.

Note particularly—in practically every single lot of Shoes advertised here, *all sizes and widths are included in every style*—and yet they are priced at less than what is usually asked for sample sizes only.

This Basement Shoe Sale will start this morning at 8:30 o'clock and continue for three days—or until the stocks are exhausted.

J. KLING'S HALL OF FAME

TWO ALL-STAR BASEBALL TEAMS BY THE CHICAGO CATCHER.

Chance and Brown Are the Only Cub Players on the First Team—Overlooks Himself and Gives the Honors to Bresnahan and Sullivan.

It took John Kling a long time to make up his mind, but yesterday he came through with a real all-star baseball team—in fact, John came through with a pair of them. In his first team the "peerless" catcher gives only two places to the world's champions—Chance and Brown. In the second team he honors the Cubs with Tinker, Evers, Overall and Reulbach. Being modest, John, of course, overlooked himself for the hall of fame.

"You will have to go some to beat these two teams," said Kling. "And, at that, the second collection looks about as good as the first. In Brown, Walsh, Mathewson and Johnson I believe I have covered the field very well. They stick out in a class by themselves. In the first team I have divided things pretty evenly between the American and National leagues."

In the second team the American league draws only four places, two of them being pitchers. His selections are as follows:

First Team—	Positions.	Second Team—
Crawford	C. F.	Murray
Devlin	T. B.	Bradley
Wagner	S. S.	Tinker
Lajoie	S. B.	Evers
Cobb	R. F.	Donlin
Chance	F. B.	Chase
Magee	L. F.	Clark
Bresnahan, Sullivan	C.	Criger, N. Clark
Brown, Walsh	P.	Joss, Overall
Mathewson, Johnson	P.	Young, Reulbach

A HARD GAME FOR K. C. A. C.

Oregon Tourists Will Play on the Blue Diamond Court To-night.

When the basket ball five of the Kansas City Athletic club hooks up with the invading quintet from Dallas, Ore., on the Blue Diamond court to-night they will be opposing a team that has been cleaning up basket ball fives all over the country. The Oregonians have been on a trip through the East and have been registering victories with remarkable consistency.

Captain Harry Minton of the K. C. A. C. looks for the hardest game of the season to date and the Blue Diamonds have been preparing by steady practice to give the invaders a real combat. Dr. Reilly, the new athletic director, has been coaching the aggregation and team work has taken the place of rough tactics. The game will be preceded by a contest between the K. C. A. C. "Midgets" and a local team. The public is invited to attend these games. Following is the lineup of the big game:

Oregonians.		Blue Diamonds.
N. Reed	Forward	Goldman
C. Fenton	Forward	Solschrid
F. Shaw	Center	Crabbe, Rullinger
V. Shaw	Guard	Minton
A. Morton	Guard	Smith

KANSAS CITY FINISHED LAST.

The 3-Cushion Billiard League Season Is About Over.

The National Three-Cushion Billiard league season will close next Tuesday night in St. Louis with the Chicago team playing the Mound City pair. Chicago is now in first place and from the way things look now it will capture the pennant. St. Louis is second and Kansas City in the cellar position. The Chicago team will meet the St. Louis aggregation in a four-game series in the latter city, beginning next Monday night. Kansas City closed the season Tuesday in Chicago, dropping three out of four games to the Windy City players.

Alford Jelliffe, president of the league, is preparing to organize a league next season that will be one of the strongest billiard organizations in the country. Eight or ten clubs will probably be in the league when the season opens next year.

A FAST TRACK TEAM AT MANUAL.

James Schwab Has Been Elected Captain of the Crimson Squad.

The Manual Training high school track athletes held a meeting yesterday afternoon for the purpose of organizing a team for the coming season. James Schwab, the crack weight man of last year's squad, was elected captain of the Crimson team. He is the most promising young athlete attending school at Manual. The team this year looks like a winner. Eleven men of last year's team will carry the Crimson colors again this season. A majority of the athletes have been doing light training for the last two months and when the season opens this spring all of the men will be in good condition for the meets.

THE JUNIORS WON THE PENNANT.

Interclass Basket Ball Season of Central High School Closed Last Night.

The Central high school juniors captured the interclass championship last night by defeating the seniors in a fast game by the score of 34 to 21. The game was very closely contested up to the latter part of the last half, when the juniors got together and forged ahead of their opponents. Bidwell and Stengel of the juniors were partly responsible in winning the championship for the third year class. These two players scored three-fourths of the points made by their team.

The sophomores defeated the freshmen in the preliminary game by the score of 27 to 23.

IT MADE JEFFRIES LAUGH.

Kaufman Couldn't Lick a Postage Stamp, Says Retired Champion.

FRESNO, CAL., Feb. 11.—James J. Jeffries, when informed of the offer of Billy Delaney to match him and Al Kaufman for a $10,000 side bet, expressed surprise that his former manager should offer to bet against him.

"Kaufman couldn't lick a postage stamp," was his laconic comment.

It was stated by Sam Berger, who is sparring partner for Jeffries, that the retired champion is training quietly before and after his performances, and he is of the opinion that the big fellow is getting ready to re-enter the ring.

A MATCH FOR TEDDY PEPPERS.

Bob Campbell to Meet Kansas City Boy Next Week.

Teddy Peppers, Kansas City's best featherweight boxer, yesterday signed articles of agreement to meet Bob Campbell in a 10-round bout in South Omaha, Neb., one week from to-night. The boys will mix at 124 pounds. Peppers and Campbell fought a savage 10-round draw in Omaha about two years ago. Since then Peppers has shown great improvement and he figures that he will win this time by the knockout route. He began training for the bout yesterday.

THE SCHMELZERS PLAY TO-NIGHT.

Independence Basket Ball Team Will Meet "Kid" Five on Former's Court.

The Schmelzer basket ball team, composed of some of the fastest "kid" players in Kansas City, will meet the Independence five to-night on the skating rink in Independence. This is the second time that these two teams have met, Independence winning the first game after a close contest.

As a curtain raiser, the Independence high school five will meet the Central second team of this city.

DORANDO AN EASY WINNER.

Percy Smallwood Was Defeated in a 12-Mile Race at Philadelphia.

PHILADELPHIA, Feb. 11.—Dorando Pietri, the Italian Marathon runner, defeated Percy Smallwood, the well known distance runner, to-night in a 12-mile race at the Third regiment armory. The Italian led from the start and had gained a lap on his opponent at the end of the first mile. His time for this mile was 4:54 4-5. Smallwood stopped running in the eleventh mile, saying his leg had gone back on him. At this time Dorando was leading by four laps. The winner's time for the twelve miles was 2:19:16 1-5.

HARVARD DROPS CARLISLE GAME.

The Brown University Football Team Will Take the Indians' Place.

CAMBRIDGE, MASS., Feb. 11.—Carlisle school has been definitely displaced on the Harvard football schedule by Brown university.

Captain Hamilton Fish of Harvard in announcing the dropping of Carlisle said to-night that "as long as Carlisle and Harvard had participated jointly in football the conduct of the Indians had been sportsmanlike and satisfactory." Brown was given precedence in the schedule because that institution "is a university, and Carlisle only a school."

HOWARD NOT THE AGGRESSOR.

The Star's Account of the Lawyers' Quarrel Contained Errors.

In The Star yesterday afternoon it was erroneously stated that T. B. Landon, an attorney, called M. J. Howard, another attorney, a liar. Howard made Landon a member of the Ananias club. Landon, not Howard, was the aggressor in the quarrel that followed. Howard, and not Landon, received the scratch on his neck and lost his collar and tie.

"I never called a man a liar in the courtroom and never expect to," Mr. Landon said.

"It was a small incident," Mr. Howard said last night. "The Star's story contained errors. It should be dismissed as an unfortunate occurrence."

Mr. Howard has an office at 626 and 627 New York Life building and is not a partner of Frank P. Sebree.

MR. BACON WILL REBUILD.

Plans for Restoring the Burned Building Have Not Been Decided Upon.

Langston Bacon, owner of the 4-story brick building at 1020-1022 Walnut street which was destroyed by fire early yesterday morning, said last night that he had made no plans. He may reconstruct the building along the same lines as formerly, or he may make more elaborate plans. T. M. James & Sons, who occupied the first floor, have several years' lease on the property, and either the repairing of the old or the building of a new structure will be begun by Mr. Bacon at an early date.

The origin of the fire still is a mystery. John Egner, chief of the fire department, said yesterday afternoon he is positive the fire started in the basement near the center of the building and worked its way quickly up the elevator shaft to all the floors. The flames were going out all the rear windows when the department arrived, he said.

L. T. James, a member of the firm, said last night a new retail store will be opened as soon as a location can be found.

PENSION FOR A FIRE CAPTAIN.

W. H. McDonnell the First to Be Retired Under the New System.

William H. McDonnell, captain of No. 18 engine company at Twenty-sixth street and Prospect avenue, was retired at his own request by the fire and water board yesterday afternoon. He is to receive a pension of $50 a month. He is the first member of the fire department to apply for the pension since the law became effective permitting the board to create a pension fund by assessing every man in the department 2½ per cent of his annual salary. Captain McDonnell has served twenty-five years. The board promoted John J. Burns, a lieutenant at No. 18 station, as captain to fill the vacancy.

No Prosecution of H. M. Hyatt.

Howard M. Hyatt, a broker, who was arrested yesterday, was released on his own recognizance because the state has no grounds for a prosecution. An information against Hyatt, charging him with obtaining a rifle by false pretenses, was issued by Virgil Conkling, prosecuting attorney, and a warrant was issued for his arrest by Justice Festus O. Miller. Hyatt explained the transaction to the prosecuting attorney, showing that there was no fraud and no false pretense. The prosecution will be dismissed.

Clears the Complexion Overnight

Pimples, Rash, Eruptions, Etc., Quickly Eradicated by New Skin Remedy.

Since its discovery one year ago, poslam, the new skin remedy, has, in its extraordinary accomplishments, exceeded the most sanguine expectations of the eminent specialist who gave it to the world. It has cured thousands of cases of eczema and eradicated facial and other disfigurements of years' standing. The terrible itching attending eczema, is stopped with the first application, giving proof of its curative properties at the very outset.

In less serious skin affections, such as pimples, rash, herpes, blackheads, acne, barber's itch, etc., results show after an overnight application, only a small quantity being required to effect a cure. Those who use poslam for these minor skin troubles can now avail themselves of the special 50-cent package, recently adopted to meet such needs. Both the 50-cent package and the regular $2 jar may now be obtained in Kansas City at the Owl Drug Co., W. M. Federmann's and other leading drug stores.

Samples for experimental purposes may be had free of charge by writing direct to the Emergency Laboratories, 32 West Twenty-fifth street, New York city.

TO APPEAL VETOES TO TAFT

CONORESS WON'T TRY TO OVERRULE MR. ROOSEVELT.

When the New President Comes In He Will Have Several Propositions Put Up to Him at Once.

WASHINGTON, Feb. 11. Secret service limitations, merit system for census clerks, the Crum appointment and the James river power bill are the chief points on which Congress will take an appeal from President Roosevelt to President Taft.

It was practically decided to-day not to try to pass the census bill over the President's veto. A hasty poll of the House hadn't developed the necessary two-thirds majority willing to go before the country on an issue with the President, especially when the President was backed with the estimate of an ex-director of the census that the application of the spoils system had cost the government about 2 million dollars in excess of the necessary expenses of the census.

TO LET SECRET SERVICE QUESTION REST.

Also, while a Senate subcommittee controlled by those two eminent patriots, Hemenway of Indiana and Gallinger of New Hampshire, both constitutional opponents of all the Roosevelt policies, announced to-day that the President was quite wrong in believing that the congressional limitations had hampered the use of the secret service; there is a strong disposition not to invite another swing of the big stick by passing a sundry civil bill embodying the present limitation.

The Republicans have given up the effort to confirm Dr. Crum, a negro, as collector of the port of Charleston at this session, and that goes over, too, to embarrass the new administration. Also it is believed best not to risk another encounter with the President on the general principle which he maintains that the nation ought not to allow its water power to be monopolized without compensation or safeguards

MEANWHILE MR. ROOSEVELT SMILES

All these matters are to go over to Mr. Taft, chiefly because of the very human desire to put off the day of disappointment, mingled with an inclination to impress the next President with the necessity of making compromises with Congress. For undoubtedly Congress is just now mightily impressed with its own dignity and is feeling considerably irritated over what it regardes as executive encroachments

There is a disposition to begin the next administration with a fine show of asserting congressional authority. President Roosevelt regards the developing situation with a degree of amusement He has confided to his friends that he believes Mr. Taft is amply able to take care of himself under all circumstances

TO SELL WASHINGTON LETTERS.

In a London Collection Is Correspondence From Valley Forge.

LONDON, Tuesday, Feb. 2—A series of interesting letters and documents relating to the American War of Independence, four signed by General Washington, are to be offered for sale at Sotheby's March 1.

The letters are chiefly addressed to Colonel Israel Shreeve, commanding in New Jersey, and are dated from headquarters at Valley Forge, New Windsor and other places between February, 1777, and January, 1781. The most interesting of the series is a letter signed by General Washington on sentences by court-martial, in which he says·

"I cannot confirm the sentence against Carter until I have consulted Governor Livingstone upon the matter. Introducing court-martial into this state was intended to remedy the weakness of the civil power, but in the state of New Jersey, where there is a law framed for the purpose of trying inhabitants taking arms on the side of the enemy, I think such persons should be delivered to the civil power."

Dodge as chairman of the board President Harris was one of the new directors elected at to-day's meeting, together with George F. Baker, J. W. Blythe, W. P Clough, James J. Hill, James N. Hill, Darius Miller, E. P. Nichols and Daniel Willard

The new directors and officers were chosen to represent the Chicago, Burlington & Quincy interests, which recently obtained control of the Colorado & Southern

Defense Gives Testimony in Carr Trial.

MARION, KAS., Feb. 11.—The defense in the Carr murder trial was still introducing evidence when court adjourned this afternoon. One witness was G. W. Patterson, night telegraph operator at Wellington, whose testimony was that a tramp came into the Santa Fe depot March 29, carrying a clothing box similar in appearance to the one containing Carr's overcoat

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medical, forest plants. World's Dispensary Medical Association, Props., Buffalo, N. Y.

Restored Their Health But Cost Them Nothing

Thousands of stomach and bowel sufferers have found the means of permanent good health and permanent good digestion through Dr. Caldwell's offer to send any sufferer a free trial bottle of DR. CALDWELL'S SYRUP PEPSIN, the great herb laxative compound. He believes from watching for twenty years what it has done that it will cure any case of chronic constipation, indigestion and dyspepsia, sour stomach, torpid liver, heartburn, biliousness, sick headache, similar disorders of the stomach, liver and bowels. It is pleasant to take, acts mildly but none the less effectively, never gripes, and is in every way an ideal laxative for the family. It is wonderful in children's stomach troubles, and they like its agreeable taste. It is a vast improvement over griping salts and cathartic pills, which are simply temporary relief, while DR. CALDWELL'S SYRUP PEPSIN is a permanent cure. Its tonic properties build up the stomach and intestinal muscles. Thousands are buying it of their druggists at 50 cents and $1 a bottle, but those who have never used it should write the Doctor for a free trial bottle so that they can make a test without expense. If you have a stomach, liver or bowel disorder, or any member of your family has, send you address and a free bottle will be sent to your home, fully prepaid. In this way legions have been restored to health without a cent of cost. Read these letters and write to-day.

FOR EVERYBODY

DR. W. B. CALDWELL
LOOK FOR HIS PICTURE ON THE PACKAGE.

For fifteen years I suffered from stomach trouble and constipation, until it seemed as if death were the only relief. The most prevalent symptoms were bloating and pressure against the heart and the most distressing pains across the stomach. I had Dr. Caldwell's Syrup Pepsin recommended to me and commenced using same. I possibly used a dozen bottles, and I can honestly say I believe it saved my life. I don't think anyone suffered more than I did, and got well, for I am not only relieved, but cured, and can eat anything without any pain or distress.—B. T. Thompson, Foreman Shenandoah, Iowa, Brick and Tile Works.

We have used the sample bottle of Syrup Pepsin and one regular 50-cent bottle and are now using a $1.00 bottle. I feel greatly benefited by its use and expect to continue using it until I am entirely cured. I am 48 years old and was afflicted with indigestion, liver trouble and general prostration, but am feeling better since I began using your medicine than I have for years before.—Mrs. Brick Fletcher, Jackson, Kentucky.

I received your sample bottle of Syrup Pepsin and after taking it bought several bottles from my druggist. I find it a good remedy for indigestion, and also constipation. I don't regret the money I paid for it.—Ida A. Fortune, Grand Junction, Tenn.

About four years ago I was taken ill with indigestion and stomach trouble. After trying several remedies I was induced to try Dr. Caldwell's Syrup Pepsin. After taking part of a bottle I was entirely relieved, and have kept a bottle in my house sire. I find it the finest stomach tonic I have ever used and gladly recommend it to all who have stomach trouble.—C. Fowler Carson City, Mich.

I used your Syrup Pepsin last summer for indigestion, constipation and biliousness, and I find it the best medicine I have ever used.—Noah B. Hatfield, Zalma, Mo.

A $300,000 FIRE IN TOPEKA.

The Parkhurst-Davis Grocery Warehouse Destroyed Last Night.

TOPEKA, Feb. 11—The four-story warehouse and stock of the Parkhurst-Davis Mercantile company was practically destroyed by fire to-night. The loss is expected to exceed $65,000 on the building and $240,000 on the contents. The Parkhurst-Davis company was the largest wholesale grocery company in Topeka. The warehouses of the International Harvester company adjoin the grocery warehouse. The Harvester building was slightly damaged. The Parkhurst-Davis insurance probably will cover more than half the loss. No one knows how the fire started. When first seen the fire was breaking through the windows of the first floor and the entire building was in flames by the time the fire departments arrived. There was little or no chance to save the property.

THEY HEARD A LINCOLN ADDRESS

The Centenary Anniversary Observed by the Knife and Fork Club.

The Lincoln anniversary dinner of the Knife and Fork club was held at the Coates house last night. J. A. S. Pollard of Fort Madison, Ia., one of the guests of honor, made the commemorative address in appreciation of the war President and his legacy to the country. A few appropriate words were also spoken by Gypsy Smith, the English evangelist. The chief guest of the evening was another Englishman, Dr. Wilfred T. Grenfell, who has been called the hero of Labrador. He went to that country in 1892 as a missionary and physician.

The Rev. Cyrus T. Brady, rector of St. George's Episcopal church, spoke on "The Citizen and the Law." He denounced the growing frequency of appeals to the "unwritten law." "The man who has respect for that law in his heart constitutes a mob," he said.

A BOMB FOR INDIA'S VICEROY.

But Lord Minto Was Not on the Train That Was Attacked.

CALCUTTA, Feb. 11—A bomb was thrown at a railroad train near Barrackpur, fifteen miles north of here, yesterday and to-day an investigation resulted in the suspicion that the act was an attempt upon the life of Lord Minto, the viceroy of India. The viceroy was due to pass this spot on his way to Assam, but it so happened that he was on another train. The explosion of the bomb did not result in injury to anyone.

IMPRISONED MINERS ESCAPE.

In Yusovka, Russia, 125 Men Had Been Entombed Two Days.

YUZOVKA, RUSSIA, Feb. 11—The 125 miners who had been imprisoned in the Catherine mine for two days following an explosion and fire escaped from the mine to-day through an abandoned gallery. Several were overcome by fumes but were helped out by their comrades.

FOR AN OKLAHOMA PRISON.

A Bill Appropriating $150,000 for Land and Buildings Approved.

GUTHRIE, OK., Feb. 11—An appropriation of $150,000 for the erection of a penitentiary and the purchase of a 640 acre farm at McAlester is carried in a bill recommended for passage by the house in committee of the whole to-day. This is the second of the public building bills to be considered.

London is twelve miles broad one way and seventeen the other. Every year sees about twenty miles of new streets added to it.

They Defend You In Your Blood

Science is assured that the white corpuscles in your blood, popularly called "Little Soldiers," defend you against infectious and contagious diseases. And that they do so only when they themselves are healthy and strong.

They destroy the micro-organisms that attack your red blood corpuscles and your bodily tissues.

But they are not in condition to do this if you are troubled with scrofula, catarrh, rheumatism, that tired feeling, loss of appetite or general debility.

Take Hood's Sarsaparilla.

This great medicine purifies and enriches the blood and builds up the whole system; makes the "little soldiers" in your blood healthy and strong; multiplies and develops the red blood corpuscles; increases the power of resistance to all diseases.

Hood's Sarsaparilla effects its wonderful cures, not simply because it contains sarsaparilla but because it combines the utmost remedial values of more than 20 different ingredients, each greatly strengthened and enriched by this peculiar combination. There is no real substitute for it. If urged to buy any preparation said to be "just as good" you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

Get Hood's Sarsaparilla today. In usual liquid form or in chocolated tablets known as Sarsatabs. 100 Doses $1.

Good Advertising
The Multiplication of Brains

Our astounding success has come through our clients' successes, due to the methods which we advocate here.

There are scores of successes to which we can cite you as evidence of what we have done.

As a natural result, this has become the greatest advertising agency that ever existed.

If you are leaving some profit-field untilled; if you are making a failure, or a semi-success, out of a great possibility; or if others win more than you, these are facts that you should know.

The Old Way

For years we did advertising in the Old Way, so we know how to make these comparisons.

We used to depend, as other agents do now, on one man's ability. He did the best that he knew.

But there are many pitfalls in advertising, and one man knew but few. There is need for vast knowledge of human nature, and one man knows but little. Success requires immense exertion, and one man has but one-man power.

Much of the advertising, in the Old Way, failed to return its cost.

The New Way

Under the New Way, we bring many minds to bear on each problem. Each is a man of vast experience and of proved ability. Each is the veteran of many successful campaigns.

These men, in conference, devise plans and means and copy. They solve all selling problems—do all that must be done.

Each contributes ideas; each guards against mistakes. When these men agree, the campaign that results is usually irresistible.

Under the New Way, we multiply the power of each dollar. We get out of advertising all the dormant possibilities. In this way we have doubled our business again and again during the past few years.

The Many-Man Power

Our two Advisory Boards, in New York and Chicago, consist of twenty-eight high-priced men. It costs us about $1 a minute to keep one of the boards in session.

There is no corps of men in all America so competent to deal with the problems of advertising.

We invite you to meet them. Submit your problems to them; ask their advice. Judge for yourself what such men may mean to you.

We Pay One Ad-Writer $1,000 Per Week

We pay to ad-writers the highest salaries ever paid. Thus we attract from everywhere the ablest men who develop.

The head of this department receives $1,000 per week. He divides his time between New York and Chicago.

In the course of years we have gathered here the ablest copy staff in existence. And here, in this vortex of advertising, they multiply their powers. They combine their ideas, and each man's success sets a pace for all others.

All are judged by results, and rivalry brings out each man's utmost endeavor.

We choose these men because they have proved exceptional ability. But, in this environment, every day increases that ability.

This incomparable service costs you no more than the commonplace. We handle advertising on the usual agent's commission.

To multiply results means to expand the advertising, and our revenue comes through expansion.

We spend on Advisory Boards and on copy what others spend on soliciting. For it is cheaper for us to develop accounts than to get them. We need to charge nothing extra.

We employ in our offices more than 200 people.

We issue a book which tells what the New Way has done. Every man who spends a dollar in advertising owes to himself its perusal. The book itself is a brilliant example of our advertising powers. Please send this coupon for it.

CONFIDENCE

We Back Up Our Statements With Our Personal Reputation and Money.

We are so positive that we can cure constipation, no matter how chronic it may be, that we offer to furnish the medicine free of all cost if we fail.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause a reaction, irritate and weaken the bowels and make constipation more chronic. Besides, their use becomes a habit that is dangerous and often fatal.

Constipation is caused by weakness of the nerves and muscles of the large intestine or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

The discovery of the active principle of our remedy evolved the labor of the world's greatest research chemists. It possesses all the best qualities of the remedial active principle of the best known intestinal tonics, and it is particularly prompt in its results.

We want you to try Rexall Orderlies on our guarantee. They are exceedingly pleasant to take and are ideal for children. They act directly on the nerves and muscles of the bowels. They have a neutral action on other organs or glands. They do not purge or cause any inconvenience whatever. They will positively cure chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Two sizes, 25c and 10c. W. M. Federmann, 904 Main and 12th and Main. Also for sale by G. Q. Lake, Kansas City, Kas.

THE PILGRIMS THEIR THEME

CONGREGATIONALISTS TALKED OF THEIR FAITH AND IDEALS.

Fifty Ministers and Laymen Attended the Meeting at the First Congregational Church Last Night—To Close Sunday.

The faith and ideals of the Pilgrims and the struggle of the crew of the Mayflower were the themes at the opening session last night of the First Southwest Congregational congress in the First Congregational church, Admiral boulevard and Highland avenue. Fifty ministers and lay delegates from Arkansas, Colorado, Iowa, Kansas, Missouri, Nebraska and Oklahoma were present.

The subjects selected by the speakers were strictly Puritan. Dr. W. F. Slocum, president of Colorado college at Colorado Springs, spoke on "The Freight of the Mayflower," and the Rev. Charles S. Mills of St. Louis on the topic "From Plymouth Rock to the World."

"There is too little of the Pilgrim idea to-day in the training of children," Dr. Slocum said. "We are not giving our boys and girls enough to do. We need to get the heroism of the Pilgrims into the hearts of the boys."

Henry M. Beardsley, former mayor of Kansas City, welcomed the Congregationalists and J. B. Gonzales, home missionary superintendent for Louisiana and Texas, responded. Judge C. A. Smart of Ottawa, Kas., and the Rev. C. G. Murphy of Oklahoma City will speak at the session of the congress this morning. The congress will close Sunday night. To-morrow afternoon the delegates will visit the fort and federal penitentiary at Leavenworth.

THE COMING ATTRACTIONS.

Frank Keenan's Return as a Star—"Sis Hopkins" at the Grand.

Frank Keenan's gambler-sheriff in David Belasco's production of "The Girl of the Golden West" won this capable actor a place as a star in "The Warrens of Virginia." As General "Buck" Warren Mr. Keenan presents a character quite different from Jack Prince of the Golden West, yet equally as interesting and as truly drawn. "The Warrens of Virginia" is the work of William C. DeMille, author of "Strongheart" and other successful dramas. It is mounted with that fine attention to detail so characteristic of David Belasco's productions. "The Warrens of Virginia" will come to the Shubert theater Sunday night.

Homer Lind, the operatic baritone whom Kansas City heard as Klingsor in Henry W. Savage's production of Wagner's "Parsifal," is in vaudeville with his own company presenting "The Opera Singer," a musical sketch written by Gus Weinberg, the comedian. The five juggling Normans stand at the head of their kind. Staley and Birbeck's Transformation is a musical novelty with many ingenious mechanical and electrical effects. William Morrow and Verda Schellberg with their company of Indians and cowboys will offer a playlet of frontier life called "Happy's Millions." George E. Delmore and Jules W. Lee, American athletes; "Happy" Jack Gardner, the singing comedian, and Mr. and Mrs. Allison, in an adaptation from the comedy "What Happened to Jones" complete the bill.

Rose Melville is in her tenth season as "Sis" Hopkins and in recognition of the tenth anniversary of the girl from Posey county, J. R. Stirling, Miss Melville's manager, has put out an entirely new production. The play has been amplified and improved, the costuming is new and the specialties which have been so delightful a feature of previous engagements have been changed and added to. This is especially true of the seminary scene. "Sis Hopkins" will be at the Grand next week.

"The Flaming Arrow," the coming attraction at the Gilliss, is a picture of life at one of the government frontier posts. As "The Old Homestead" is typical of the East, so is "The Flaming Arrow" of the would be typical West. Lincoln J. Carter is its author and producer.

Harry Fox is one of the "new school," younger comedians of the Empire circuit. He will come to the Century theater for a seven days' engagement next week, with Tom W. Miner's Merry Burlesquers in a musical farce in two acts, entitled, "The Fixer." The vaudeville bill will consist of the two Franciscos, comedy conjurers; Harry Fox and the Millership sisters in a twenty-minute skit of nonsense, and the Busch de Vere trio in a musical novelty. The company also presents the motion pictures of the Nelson-Gans fight of September 9, showing the blow that cost Gans the championship. A matinee every day.

Something tangible in the way of a plot, an abundance of humor through rapid succession of ludicrous and complicated situations, plenty of rattling lyrics and a variety of tuneful melodies, a score of clever principals, a chorus fair to look at and who can sing, dance and wear elaborate costumes to advantage—these are the promises for Harry Bryant's burlesquers at the Majestic next week.

SMALLPOX IS SPREADING.

Fourteen New Cases Developed Yesterday Among William Jewell Students.

LIBERTY, Mo., Feb. 11.—Fourteen new cases of smallpox developed among the students of William Jewell college here this afternoon. The total number of cases is now twenty-nine. All the students who are ill have the disease in a very mild form and are suffering little inconvenience except the quarantine restrictions.

The college gymnasium has been turned into a hospital and twenty-six of the cases are there. Dr. W. B. Hoosier, a theological student, formerly a practicing physician, is attending all of the cases. It is not known how the students were exposed to the disease. There are no cases among the townspeople. A further spread of the malady is expected.

THE SERIOUSNESS OF A CLOWN.

Deep Study All the Time to Keep in Touch With Funny Things.

Did you ever consider that clowns were born and not made? "Foolish" Ford, chief of the fun manufacturers at the Shriners' circus in Convention hall this week, thus orates.

"Foolish" sat on a trunk in his tent dressing room out in the areaway at Convention hall yesterday making a few remarks on clown tactics past and present.

"When I was seven years old I ran away with a wagon circus traveling outside of Liverpool. I acted as natural as I could in the ring for about a year, then met up with a middle aged fellow who had quit the undertaking business and gone into clowning because he was born bughouse and couldn't keep his face straight at a funeral. We did the man and boy clown stunt for years.

"We aim mainly at pleasing the children and the women. Old stunts like the bladder and slapstick work will always hold a place but they won't do everything. That's the way I started my timid stunt in connection with the daredevil somersault on the bicycle in this show. When the guy is about ready to start down the incline I have a big pasteboard box handy and after a big fuss run off a piece and crowd my head into it. Even in the midst of the breathless suspense it never yet has failed to take."

JAYHAWKERS WON THIS TIME.

Washington University Basket Ball Five Finished Second in a 23 to 18 Contest.

ST. LOUIS, Feb. 11.—The Kansas university basket ball five defeated the Washington university team in the second and last game of the series in the Francis gymnasium to-night by the score of 23 to 18. The Jayhawkers led all the way, the score being 14 to 8 in their favor at the end of the first half. Coach Cayou of Washington made two changes in his team at the end of the first half, Brooks going in at left forward in place of Henger, while Tittman took Etlinger's place at right guard. The lineup:

KANSAS	Position	WASHINGTON
McCune	Right forward	Skaer
Johnson	Left forward	Henger, Brooks
Bergen	Center	Rodenberg
Woodward	Right guard	Maddox
Marundell	Left guard	Etlinger, Tittman

COULON KNOCKED OUT MURPHY.

New York Fighter Was Put to Sleep in Fifth Round Last Night.

NEW YORK, Feb. 11.—Johnny Coulon of Chicago, America's bantam champion pugilist, was the victor to-night over "Kid" Murphy of this city in the fifth round of what was scheduled as a 10-round bout at the Whirlwind Athletic club. At every stage of the bout Coulon was Murphy's master, and in the fifth he sent a right to the heart and a left hook to the jaw, putting the New York man out.

The Attell-Bronson Fight Called Off.

DAYTON, O., Feb. 11.—The Attell-Bronson fight scheduled for to-night was called off on account of the latter being four pounds over weight. Attell's manager offered to send his man ten rounds against Bronson but the principals were unable to agree on the posting of the stakes.

TAFT TALKED OF THE CANAL

IN A NEW ORLEANS SPEECH HE APPROVED THE PRESENT WORK.

Cabinet Positions Will Be Considered, but No Announcements Yet—The First Draft of Inaugural Address Made.

NEW ORLEANS, Feb. 11.—President-elect William H. Taft landed here shortly before 3 o'clock this afternoon from Panama. He will be the city's guest until Saturday morning. Mr. Taft made a brief speech this afternoon, heartily approving the present lock type of canal across the isthmus. To-morrow he will address the negro Y. M. C. A. and at night he will be the guest of honor at an elaborate banquet. He will go to Cincinnati Saturday.

Mr. Taft said he should adhere to his previously announced plan of remaining silent regarding his cabinet and also keeping appointments open until the last moment to provide against possible contingencies.

TO TAKE UP CABINET NAMES.

It is regarded, however, as highly probable that offers of cabinet positions are to be made without great delay. Mr. Taft said he expected to get some information he had asked to be obtained for him in his absence.

The arrival here this afternoon of Frank H. Hitchcock and the presence of J. C. Shaffer, owner of the Chicago Evening Post, on whose judgment Mr. Taft said he should place weight regarding cabinet aspirants from the vicinity of Chicago, made it apparent that cabinet activities have begun.

NO ONE FOR THE TREASURY.

From what Mr. Taft said to-day it is a fair inference that he has decided on no one for the Treasury portfolio.

On the trip from Panama, Mr. Taft made the first draft of his inaugural address. This he intends to submit to certain friends in Washington next week.

The inability of the consulting civil engineers to finish their report made the Washington visit, planned by Mr. Taft, necessary. The engineers will go at once to Washington to finish their work. Their report is expected to be a complete approval of present plans and methods on the isthmus.

GETTY TO LOSE HIS CONTEST.

The Kansas Senate Committee Said to Favor Milton of Wyandotte.

TOPEKA, Feb. 11.—The senate committee on elections in the Getty-Milton senatorial contest from Wyandotte county, it is understood, will report favoring Senator Milton. Four members of the committee are said to be positive that Senator Milton shall retain his seat, while the fifth is inclined toward Getty, he says, on a technicality.

BURGLARS TOOK HIS STORE.

A Norwich, Kas., Merchant Must Sell Live Stock to Meet Bills.

NORWICH, KAS., Feb. 11.—As the result of a burglary in his store on the night of January 24, L. D. Henson, who until a week ago was the owner of a large general store here, has advertised for sale at auction his farm machinery, cattle and other property to raise money to pay his creditors. He carried no burglary insurance and his loss is estimated at about $3,000.

Norwich is a town of 600 population, in the southeast part of Kingman county and about thirty miles west of Wichita. No night watchman is employed and after the stores close late Saturday nights, burglars are practically free to work unmolested. A wagon was backed up to the rear door of the Henson store and merchandise by the box, bolt and package was carted away, presumably to Wichita. When Henson discovered his loss the next morning he said there were not enough goods left in the room to start a fire sale, so he sold them and notified his creditors that he would sacrifice his other property to make good the loss.

A bloodhound owned by the town marshal led a posse to a small house in the suburbs of Wichita, but the police there refused to permit the Norwich officer to search the place.

A new stock of goods is being placed on the shelves of the Henson store by a new proprietor and Mr. Henson has been employed as a clerk to help sell them to his former customers.

"The stock when recently invoiced amounted to about $7,000," Mr. Henson said to-day. "After those burglars got through with it I doubt if it was worth half that much."

Henson was a farmer who moved to Norwich several years ago to send his children to the high school here. He owns a large farm near town.

"POSSUM" DINNER FOR SHERMAN

Georgia Members of Congress Will Entertain the New Vice President.

WASHINGTON, Feb. 11.—Because the Vice President-elect, James S. Sherman, was deprived of the pleasure enjoyed by President-elect Taft at the recent "'possum and taters" dinner in Atlanta, the Georgia delegation in Congress has determined to give Mr. Sherman a dinner here soon after the inauguration at which the famous dish shall appear.

"We shall see that Georgia furnishes the ''possum and taters,'" said Representative Edwards of Georgia to-day. "Last season's crop of both was excellent and many of our citizens will be glad to send these Georgia products to the capital for Mr. Sherman."

K. U.'S $20,000 CLAIM PUT OFF.

House Leaders Killed the Provision to Pay for Free State Hotel Damages.

WASHINGTON, Feb. 11.—The claim of the University of Kansas against the government for $20,000 for the destruction of the Free State hotel in Lawrence will not be settled at this session of Congress. The appropriation was authorized by a provision of the omnibus claim bill, which has been killed by the House leaders.
